"PRINT"Mandalay Bay active shooter

SUBJECT

DIVISION
REPORTING:CCACDIVISION OF
OCCURRENCE:CCACDATE & TIME
OCCURRED:10/1/2017 2208LOCATION OF
OCCURRENCE:MANDALAY BAYNARRATIVE:

On 10/1/2017 I Officer D. Flamm P#14950 along with Officer D. Westhead P#14467 were operating as marked patrol unit 3PT80 in vehicle #9965. We were driving south bound on Las Vegas BLVD at Harmon when we received radio traffic of shots being fired at the Route 91 festival and Mandalay Bay at approximately 2208 hours. Shortly after initial radio traffic, 169SE gave radio traffic stating there was an active shooter at the Mandalay bay.

I then proceeded to drive code 3 south bound Las Vegas blvd towards Mandalay bay. It took approximately 2 minutes and 30 seconds to arrive on scene. When pulling up to Mandalay bay road I could hear automatic gun fire however, I could not tell where it was coming from.

Driving south on Las Vegas blvd I conducted a U-turn at Mandalay bay road to end up facing north bound on Las Vegas blvd. Officer Woodruff parked his explorer first northbound Las Vegas blvd just north of Mandalay bay road followed by Officer Rosales who parked her crown Victoria just behind Officer Woodruff. I then parked the PT van just behind Officer Rosales crown Victoria and Officer Haynes and Officer Cook parked their crown Victoria just behind the PT van slightly in the intersection of Las Vegas blvd and Mandalay Bay road.

Once parked I exited the vehicle with the Mandalay bay to my left side and route 91 festival to my right side. I continued to hear automatic gun fire but still could not tell where it was coming from. I immediately ran around the front of my vehicle to the passenger side where Officer Westhead and I took cover behind the PT van engine block. I then moved forward to take cover behind the engine block of Officer Rosales crown vic with Officer B. Cook just to my left. The automatic gun fire continued and we were now being shot at. Rounds began to hit the crown vic we were taking cover behind. The rear window was shot out and multiple rounds were hitting the ground in front of us and all behind us. The PT van had its rear windows shot out and multiple rounds hit the driver side of the van.

While taking cover behind the engine block of the crown vic we continued to take fire which was striking the vehicle and street around us. Officer Cook then started yelling out that he had been hit. Officer Cook could not move his arm and Officer Haynes ran to us and grabbed Cook. They then took off running north bound on Las Vegas Blvd to seek medical care for Officer Cook.

I then moved to the explorer which was parked in front of the crown vic and took cover behind the rear passenger side tire next to Officer Woodruff. Once behind the explorer we continued to take fire which continued to hit the patrol cars we were taking cover behind and the street around us.

At that point we began to bound by teams of two towards a brick wall that was approximately 50 feet to our east just next to route 91. From behind that wall we continued to take fire as we began to evacuate civilians out of the area who got stuck behind the wall with us. Behind the wall I came in contact with Officer Clarkson who had a wound to his neck. Another plain clothes officer and myself then gave him medical attention by wrapping his neck with gauze to stop the bleeding.

Once we evacuated all of the civilians from our area we then formed two strike teams. The strike team I was assigned to headed south and left the cover of the brick wall. We then bounded towards the Mandalay bay from Route 91 festival. We took cover behind our cars first where I crawled into the crown vic to attempt to retrieve the shotgun however I could not due to the rounds that struck the vehicle. We then bounded across the blvd and hopped a fence into the south east parking lot of the Luxor. From there we ran through the parking lot until we found cover between trees that were in the Luxor parking lot just adjacent to the main entrance of the Mandalay bay. We moved forward to the main entrance of the Mandalay Bay where we made entry into the casino.

We then continued to clear the casino floor, House of Blues, sports book, the spa and maintenance areas. While clearing those areas we found multiple civilians hiding. We gathered up all of the civilians and escorted them out to safety without incident. Once the CP was set up and we ran into SWAT officers inside of the casino I was then placed on a perimeter position on the north side of Mandalay Bay just off of Mandalay Bay Road.

Officers: A. Mariscal P#16415, L. De Souza P#13979

Narrative: On October 1st, 2017 at approximately 2204 hours, I, Officer A. Mariscal along with Officer L. De Souza responded to a 415A at the Mandalay Bay located at 3950 S. Las Vegas Blvd. LVN, 89109. Upon receiving the radio traffic, we responded Code 3 from the CCAC substation. We then arrived at the intersection of Reno and Giles with other patrol officers and proceeded to break off into individual officer elements and move forward into the venue. Entering the venue we pressed forward towards the Mandalay Bay before receiving further radio traffic advising the shooter was inside the hotel. We then determined we were in a position of disadvantage and proceeded to evacuate the concert area and directed all patrons east away from the Mandalay Bay. We cleared all trailers and occupied structures within the venue until further advised. After the scene was vacated we proceeded back out towards our vehicle still at the intersection of Reno and Giles and established a perimeter to not allow citizens back into the area. We maintained this post until we were relieved the following morning.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
OFFICER'S REPORT

Event #: LLV171001003519

SUBJECT

DIVISION REPORTING: <u>CC12</u>	DIVISION OF OCCURRENCE: <u>Convention Center Area Command</u>
DATE & TIME OCCURRED: <u>10/01/2017 & 2208</u>	LOCATION OF OCCURRENCE: <u>Route 91 Concert</u>

NARRATIVE:

On 10/01/2017, I, Officer J. Citelli P#16435 and Officer T. Guynn P#14891 were in briefing when Sgt. G. Everett heard via radio traffic multiple shots fired at the Route 91 Concert. Officers were driving code three on the way to the Route 91 Concert as we heard shots fired coming from that location.

Upon arrival we saw multiple victims running West bound on Reno Dr. so we parked our marked patrol unit at the South East side of Reno and Haven. As officers were exiting their vehicles victims were screaming for help as well as pointing in the direction where shots were being fired. We could hear shots coming from the area of the Mandalay Bay and Luxor so we gathered several officers to form a team and make our way towards the Route 91 concert.

The active shooter team started to head North bound on Haven, as officers were actively looking for the shooter they saw multiple casualties and injured citizens. Officers pointed these victims towards safety which was South bound on Haven and South bound on Reno. As officers directed the victims to safety we arrived to the dirt parking lot just East of the concert and slowly worked our way up the VIP entrance still formed in our active shooters squad.

As officers made entry to the concert we continued to guide victims in a safe direction and helped clear the Route 91 concert area. Once we knew the scene was safe we provided cover for officers looking at the Mandalay Bay and Luxor to find the active shooter. Eventually the shooter committed suicide and we began making our way out of the concert grounds.

Officers then arrived at Tropicana and Las Vegas BLVD to start creating Force Protection (FP) Squads. Several other officers and I made up Force Protection 5. We worked our way to several hotels as FP 5 including Paris, Luxor, New York New York, and Mandalay Bay. There were no injured victims for us to transport so we held ground at Mandalay Bay where I was split up from FP squad five.

Myself and other officers walked from Mandalay Bay to South Central Area Command where I eventually teamed up with officer A. Jacob P#16435. Our team stayed in front of the South Central Area Command for several hours until we were assigned to help out the coroners unit and identify a couple of dead

bodies as well as move them. This was our last assignment before being relieved by day shift of the South Central Area Command.

OFFICER'S REPORT

Event #: LLV171001003519ACTIVE SHOOTER ROUTE 91

SUBJECT

DIVISION REPORTING:	<u>CCAC PATROL</u>	DIVISION OF OCCURRENCE:	<u>CCAC</u>
DATE & TIME OCCURRED:	<u>10/01/17 10:05 PM</u>	LOCATION OF OCCURRENCE:	<u>3901 Las Vegas Blvd S Las Vegas, NV 89119</u>

NARRATIVE:

On 10/01/17 at 2205 hours I, Officer T. Peterson P#16439 and FTO Officer J. Lefler P#14745 as marked patrol unit 3M35 were responding to an accident on Tropicana and Paradise Las Vegas, NV 89109. Then details of an active shooter came over the radio at the Route 91 concert.

We left the accident and went over the radio for dispatch to show us in route and that we were rolling code 3 to the venue. We went West on Tropicana Ave then made a left onto Koval Ln that turned into Reno Ave. That's when we saw all the victims running out onto the street covered in blood which made us turn left onto Giles St. When we pulled up to the entrance we got out of our vehicle and Officer Lefler deployed his rifle. That's when we heard the automatic gun fire and the screams of the victims. That's when we knew this was an actual active shooter. We started making our way into the venue when ran into Officer Saleem P# 13393 and Officer Cooney P#13581. We formed up a strike team and made entry into the venue. We were one of the first strike teams to make entry into the venue. We made entry through East side entrance of the Route 91 concert. As we made entry we heard the automatic gun fire from the subject's rifle. While making entry we were yelling and telling everyone to get out. Victims were coming up to us with bullet holes on them and covered in blood. We made our way up to the concession stand and posted up there trying to look for a muzzle flash and even the assailant. We were not able to see anything all we could hear was the automatic rifle and the rounds hitting victims and the ground. We could not even hear where the automatic gun fire was coming from it sounded like it was coming from multiple directions. Victims were running up to us and trying to join our strike team so they could help we told them to get out and start helping outside the venue where we knew it was safe. We were asking where is the shooter and what does he look like. They told us that the automatic gun fire was coming from the Southwest corner of the venue and possibly the Mandalay Bay Hotel. They had no description of the assailant. That's when Officer Saleem P#13393 told our strike to move back because the subject's rounds were hitting right in front of us. So we retreated back to a BBQ stand where we had better cover and a better view of the infield. That's when my FTO asked me if we locked our vehicle. That's when Officer Saleem and I decided to go check on our vehicles to make sure they were locked. We ran out there and both of our vehicles ended up being locked. Officer Saleem, myself and another officer formed up to make entry back into the venue. Once we made entry we met back up with Officer Lefler and Officer Cooney. We started assisting the victims and telling them that the ambulances were outside the venue. We were trying to make sure that they knew they were safe. That's when we started pushing forward through the concession stand.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: LLV171001003519

After we heard the gun fire stop that's when we came up with a plan to move forward so we can start clearing the venue. We started pushing forward and Officer J. Lefler took point.

Officer Lefler came up with a plan to push forward to where the stage control was in the middle of the infield. We ran in pairs of 2's while officer Lefler was our cover. Our goal was to get everyone out safely while still trying to locate this assailant. When we ran there I made contact with a female who was laying down and did not want to move because she was in shock. That's when I split up with my FTO J. Lefler and I made the decision to get this female out of the venue. A security guard of the venue jump over the rails and grabbed the female. That's when I told another officer to be the cover and I'll be the point officer while we escort this female out. After I escorted the female out I formed up with another strike team and we reentered the venue and started to help clear it. After we cleared the venue our strike team decided to go and start bringing FD into the venue to start helping with the injured/casualties. When we were making our way out of the venue that's when the calls over the radio started saying there was an active shooter in the Paris hotel. Once we heard that we ran to a vehicle so we can go help assist the other officers on clearing the Paris hotel. We arrived to the Paris hotel and went in to meet with other strike teams and we formulated a plan to start clearing the Paris hotel. After we cleared the Paris I ended up on Tropicana and Las Vegas Blvd where I waited to be a force team with medical. That's when I received a text from my FTO Lefler asking "if I was okay?" and "where was I?" I let Officer Lefler know I was okay and where I was. He told me to find another FTO from our squad or our sergeant. I never got assigned to a force team so I stood on the Blvd and Tropicana to help block one of the deceased victims until relief came in at 0600 hours to take over the perimeter.

I changed my body cam footage is available and it changed to a 415A.

Route 91 Shooting

SUBJECT

DIVISION REPORTING:	<u>Tourist Safety</u>	DIVISION OF OCCURRENCE:	<u>CCAC</u>
DATE & TIME OCCURRED:	<u>10/01/2017 2208hrs</u>	LOCATION OF OCCURRENCE:	<u>3950 S Las Vegas Blvd Las Vegas, NV 89109</u>

NARRATIVE:

On 10/01/2017 I Officer B. Engstrom P#16440 was working as a patrol officer assigned to graveyard shift at CCAC when the following events happened:

At approx. 2208hrs I was sitting in the briefing room when a call for shots fired came out over the radio. At this time, Sgt. Everett told all officers to run to their vehicles and respond to this call. Officer Cole (FTO) and I were rolling code as I was trying to log into the computer. As that was unsuccessful, I was hearing what sounded like automatic gunfire over the radio and proceeded to grab the lethal shotgun. Officer Cole was able to log us on over WANTS channel and we began operating as 1M22.

We arrived at the corner of Reno & Giles. Upon arrival, there were hundreds of bystanders that were running for cover away from the Route 91 event. As I opened the door to exit the vehicle, I loaded the shotgun and was met with loud and continuous automatic gunfire. We proceeded to direct civilians away from the sounds of gunfire while we took cover. Officer Cole and I made our way to a large electrical box on the southwest corner of Reno & Giles just outside of the event fences while people, some with gunshot wounds and other injuries were running towards us. I directed them to keep going and get out of the area. We then made our way back to one of the patrol cars for cover and to help with other officers and injured.

A short time after, a male later identified as [REDACTED] ran up to us carrying an injured female, the female was later identified as [REDACTED] was yelling to us that his wife [REDACTED] had just been shot in the head. [REDACTED] appeared to be bleeding from the head and was unresponsive. Officers Cole and Sims picked the wounded female up and placed her in the back of the patrol vehicle. Her husband got in with her and began tending to her.

Officer Cole then drove Code 3 to UMC while I rode passenger. When we arrived at UMC, I immediately exited the vehicle and opened the rear passenger door where the husband got out and I picked her up out of the vehicle. As I got her out of the rear seat, I instructed the husband to take the chest/head of [REDACTED] in order to keep her neck stable as I grabbed her feet. The husband and I ran briskly to the stairs near the entrance where I tripped over the stairs but kept control of [REDACTED] feet. This is where Officer Cole took control of her upper body and we ran [REDACTED] inside where we placed her on a hospital bed.

Event #: LLV171001003519

Officer Cole and I washed our hands and proceeded to roll Code 3 from UMC to the command post located at SCAC. At this location we were tasked with scribing strike teams on the hood of a patrol car. After being there for approximately 30-45 minutes, we were assigned to Force Protection Team 22 which was tasked with clearing the Route 91 event with EMT/Fire personnel. After clearing the area, Officer Cole and I made our way back to the command post where we told to change our uniforms and meet with our Sergeant.

After changing our uniforms Officer Cole and I met with Sgt. Everett at the location of Reno & Duke Ellington where we were security for 3 dead bodies. We were there until the Coroner & CSA arrived to process the scene and remove the bodies. At approximately 0900 hrs we were relieved by day shift officers and secured.

OCCURRENCE: CCAC/CC33B/PatrolDATE & TIME
OCCURRED: 10/01/17 - 2208LOCATION OF
OCCURRENCE: 3950 Las Vegas Blvd S LV, NV 89109NARRATIVE:

On 10/01/17 at 2208 hours while operating as marked patrol unit 3M7 I Officer E. Pazoscazares P#16450 was at CCAC completing my DOR with Officer G. Dobbins p#14910 and heard a unit working the Route 91 Harvest Festival calling out over the radio of shots being fired and later confirmed it was an Active Shooter. We immediately left the station and got back into our patrol car to head towards the festival using code 3 until we reached the location. Once we got to the intersection of Reno and Koval in M3 we heard shooting coming from an unknown location and heard via radio that the shooter was on high grounds. So knowing that being in our vehicle for any longer could have made us a target we immediately parked and stepped out the car to utilize as a form of cover/concealment.

Dobbins and I noticed many civilians and victim's running down the street in terror and quickly told them to head either east down Reno or North down Koval to be able to stay away from gunfire. Many of the victims who had wounds ranging from slight scrapes to bullet holes causing massive bleeding stay on Reno behind our patrol car and the other units who joined us. After for approximately 10 to 15 mins of designating people where to go I started to attend the wounded to the best of my abilities while a few officers were covering the East and South sides of the street for any unknown threats that may occur. I was helping a few people walk to a power box that was near us to utilize as cover while also telling people to keep moving back to go behind our vehicles.

I helped a man with a gunshot wound on his arm by putting my tourniquet on the highest point to help slow down the bleeding as much as possible, after I went over to a group of people trying to pick of a woman with a gunshot wound to her leg. We picked her up as I applied pressure directly over the wound using my hand until we brought over towards the ambulance vehicles that were arriving to our location. Once we got her inside I helped another woman with a gunshot wound on her leg by applying a makeshift tourniquet of a shirt that she had in her possession and gave to me to use. While helping her a male and female came to me asking if I could apply another makeshift tourniquet on the woman with a gunshot wound on her ankle which I applied immediately after.

After all the units there were attended to most of victims we posted behind our vehicle to provide cover for the remaining people still waiting to get picked up and transported to UMC. Once mostly everyone was taken to UMC we stayed our position for any remaining victims or civilians to come and stayed there the rest of the

SUBJECT

DIVISION
REPORTING:ISD / Gang Vice BureauDIVISION OF
OCCURRENCE:SCACDATE & TIME
OCCURRED:10-01-17 @ 2215 hoursLOCATION OF
OCCURRENCE:Mandalay Bay Hotel
3950 South Las Vegas Blvd Las Vegas,
NV 89119NARRATIVE:

On October the 1st 2017 @ approximately 2217 hours, I Detective M. Smith, P#7209, as part of the Gang Vice Bureau's Intelligence Section, (at home in an off-duty capacity) received notification from (2) two separate LVMPD Police Officers that an "active shooter" was currently transpiring at the Mandalay Bay Hotel / Casino. I retrieved my pack-set and began monitoring radio traffic. Based upon the obvious highly dynamic traffic, I immediately donned an LVMPD ARMOR tan BDU uniform and retrieved my rifle and med-bag from the lock box in my take home vehicle. (Although currently assigned to the Gang Vice Bureau, I maintain certifications for part time medical support to various tactical teams in the valley, and possess issued medical / tactical gear from the ARMOR section).

Based upon the dynamics of the incident, I did not "log on" and proceeded towards the Mandalay Bay "code-3" in unmarked vehicle #9889. While en-route, constant information was being relayed and multiple Officers were screaming for assistance. Given the nature of the broadcasts and the still very active scene, I planned to arrive at Koval south of Tropicana, in order to minimize the police footprint which was sure to be closer to the primary scene. Given the close distance of my residence to the Mandalay Bay, my travel time was approximately (5) five minutes. I arrived at 5050 Koval Lane at approximately 2230 hours.

Casualty Collection Point / 5050 Koval Lane-CCAC Officer Samuel Wittwer P#15218 -CCAC Officer Robert Thiele P#15356-CCAC Officer Ashley Lit P#15392 -CCAC Officer Jordan Mitchell P#15337

Upon arrival, it was immediately apparent that only (3) three Officers were present and were clearly undermanned. (1) one or (2) two marked Patrol units were on scene as well as a lone CCFD engine. The team of Officers were attending to the multiple victims while attempting to provide scene security. Given the constant radio broadcasts, it was clear that no additional help would arrive at this location. Based upon the initial "scene size-up", casualties had been utilizing Koval Lane as a northern egress from the concert. I donned my heavy vest and headset along with latex gloves. Multiple injured parties were strewn across the parking lot with others being carried by bystanders. An impromptu line of vehicles (mostly pick-up trucks) had formed in the parking lot. Contact was made with the CCFD Captain and I identified myself as a medic and

Event #: 171001-3519

asked where he needed help first. The Captain pointed to a group of unattended casualties at which time a rapid triage assessment was conducted. An unknown 20-30 y/o WFA possessing a gunshot wound to the right upper-leg was the first patient assessed. Like several other victims, she possessed a makeshift tourniquet fashioned from torn clothing. I explained to her that I needed to touch her leg / rear thigh in order to locate additional wounds (i.e. exit wounds) and informed her 'what I was doing' as I was doing it. Based upon the fact the torn clothing tourniquet had controlled the bleeding and no additional wounds were present, she was cleared for transport. The remaining victims in my "assigned" group were assessed and cleared in the same manner.

During this time, an unknown male wearing medical gloves contacted me and asked if he could help. I gave him my vehicle keys, directed him to my vehicle parked approximately 50 yards away, and asked him to retrieve my medic bag from the front seat. He immediately returned with the bag, provided me with the keys and advised me that he had locked my vehicle. (Multiple bystanders were on scene assisting in the same manner. Some were intoxicated individuals attempted to relay shooting information, while others assisted holding I.V. bags. One group of individuals had "commandeered" a 'mule' off-road utility vehicle and offered assistance). The line of trucks which had formed in the lot were being utilized as make shift ambulances. The (3) three multi-tasking Officers were extremely busy loading victims and their families into pick-up trucks for transport. "Official ambulances" arrived sporadically.

Radio traffic was then broadcasted in reference to a possible older male suspect who was armed and wearing military fatigues on Tropicana. The details of this report were unclear and the suspect's location remained unknown. Several reports had previously been relayed reference additional shooting suspects prompting the Dispatcher to state (something to the effect of): "Everybody take a deep breath and slow down. Please attempt to verify information before you broadcast it."

While continuing to assist and load patients into vehicles, several parties directly across the street from our location began shouting and pointing. (1) one of the unknown parties clearly shouted: "There he is!" An unknown WMA 60-70y/o approximately 5'8 160 lbs was being taken into custody / escorted across the street by (1) one unknown Officer wearing a yellow raid jacket. By his clothing and actions, it was presumed that the unknown Officer was in fact a Detective. The Detective stated that this subject was observed placing firearms into a motor home directly across the street from our casualty collection point. Additional information suggested that a second party was present in the trailer. (This information was either broadcasted by an off-site Officer or Dispatch. Based upon the dynamics of the event and constant information flow, recollection of where this info originated from remain unknown).

I then requested assistance from Officer Thiele P#15356 with clearing the trailer. The indignant WMA denied possessing any firearms and claimed that he and his wife were staying at the Mandalay Bay where he believed his wife to currently be. We retrieved the keys from the suspect and proceeded across the street. Given the exigent and emergent circumstances, Officer Thiele and I made a warrantless entry and cleared the "trailer", (which proved to be a motorhome). No additional parties were present. A rapid cursory search did not reveal any firearms. Officer Thiele and myself returned to assisting Officer Mitchell P#15337 and Officer Lif P#15392 with the casualties which were still actively streaming in.

After assisting additional victims into various transports, a firefighter approached us and asked "If I had dealt with the Officer down yet?" He then pointed towards (1) one of the marked Patrol units parked on the east side of Koval Lane. At this time, an Officer's leg was observed hanging out of the vehicle. We immediately began running at which time Officer Thiele slowed me down and assured me that the 'Officer Down' was "Okay" and directed me towards his squad-mate Samuel Wittwer P#15218. Wittwer was actively

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: 171001-3519

covering the west end of the casualty collection point with (either a rifle or shotgun). Wittwer's right boot had been removed and he was in obvious pain (i.e. facial grimacing and intermittent groans). A visual inspection revealed that his right lower leg-foot was slightly deformed. Given the dynamics of the event, I chose not to immediately splint the injury, instead chose to apply a rapid supportive compression dressing around the upper foot / shin area with a supplemental icepack. Due to the severity of the injury as well as his obviously excessive pain level, I placed an "I.V." catheter into Wittwer's right arm, in order to expedite administration of pain medication en route to, or upon arrival at the hospital. An ambulance was located, and care of Wittwer was transferred to the arriving CCFD ambulance personnel.

At this time, additional reports were broadcasted in reference to the elderly male suspect currently being detained. Information suggested that the male possibly possessed a black duffle bag and may have had explosives in the motorhome. Although Officer Thiele and myself previously cleared the motorhome, it was conducted very rapidly with little attention towards anything other than searching for actual people. Based upon this new information, we returned to the motorhome and conducted a second search. A large black duffle bag was then located beneath the 'dining room' table. I slowly opened the bag at which time an empty brown handgun holster with (2) two semi-automatic handgun magazines were located. I photographed the holster with my department issued cellphone and sent the photo to GVB Detective J. Vance P#9004, whom I knew was on duty. I requested that he contact dispatch and advise of the holster's location. I also requested that he "log me on" as well. Officer Thiele and myself then completed a more thorough search and ultimately secured the motorhome and locked it. The Detective detaining the suspect was located and briefed. Given the adequate number of medical personnel now onsite, I requested that Thiele accompany me towards the Mandalay Bay.

While walking westbound, we surprisingly came into contact with Officer Samuel Wittwer who was still seated in the Patrol vehicle with his (shotgun or rifle) providing cover. Officer Mitchell P#15337 was providing security for the injured Wittwer. I then asked Wittwer (pointedly) why he was in fact still on scene after we had retrieved him an ambulance. Officer Wittwer then stated something to the effect that: "Those people need it more than I do, I want to stay and help. I have to help." I then explained (sternly) that there were still reports of shooters in the vicinity and we couldn't go find them because Officers wouldn't leave Wittwer while he was injured. With verbal assistance from Officers Lif, Mitchell, and Thiele, Officer Wittwer finally agreed and an ambulance driving code westbound on Tropicana was hailed. Officers then retrieved the gurney and assisted loading Wittwer into the LVFR ambulance. Once we were sure that Wittwer was finally secured, a medical report was given to the Paramedic. Wittwer was finally transported to Sunrise Trauma. (*On 10-2-17, I completed the LVMPD #615 "Patient Care Report" and submitted it to LVMPD's Assistant Medical Director).

Hooter's Hotel Casino / Tropicana Hotel Casino

*-Officer Robert Thiele P#15356 -GVB Detective Eric Stafford P#13642 -GVB Officer Rafael Camacho P#14905
-GVB Officer Levar Bell P#13591 -ODB Officer Robert Chamberlain P#6626
-ODB Officer Dean Hennesy P#6736 -ODB Officer Bert Hughes P#6750*

Various reports were still being broadcasted reference additional shootings at multiple casinos. I then requested that all (4) four of us make our way to Mandalay Bay. Officer Mitchell (correctly) informed me that the fire department still required security at our current site. It was then determined that Officers Mitchell and Lif would remain at the casualty collection point while Thiele and I would make our way westbound towards Hooters Hotel / Casino. I returned to my vehicle, donned my helmet and retrieved my rifle.

While walking westbound, constant streams of people were passed. Thiele and I ordered each to show us their hands, and informed them to show their hands to other Officers for the remainder of the evening.

CONTINUATION

Event #: 171001-3519

Radio traffic continued to consist of requests from Officers for assistance and medical help. We were then hailed by a group of people huddled over an apparent body. Upon arrival, an elderly male was conscious however had injured his hip while attempting to flee the area and had become immobile. While Officer Thiele assisted the male, an ambulance parked on Tropicana was retrieved. I contacted the CCFD medic and informed him about the elderly male. I apologized for the 'low priority' patient however told the medic he needed extrication from the dynamic area. The firefighter was concerned about the "hot zone" and after assurances of his safety, the ambulance was escorted approximately 50 yards to the elderly male where he was loaded and transported. Reports were now being broadcasted reference a possible shooter at the Tropicana Hotel. Officer Thiele and I made our way westbound while doing our best to clear parked vehicles and people along the way. A body covered with a sheet was located west of Hooter's Hotel on the sidewalk adjacent to Tropicana. It appeared that hotel security utilized crime scene tape to form a very small perimeter around the body however multiple bystanders were observed walking through / over the tape.

A broadcast reference a male shot in the head inside the Tropicana Hotel was received and Officer Thiele transmitted our location and status onsite. We were met by an additional contingency of Officers including MACTAC Officer(s) Chamberlain P#6626, Hennesy P#6736, Hughes P#6750 as well as off duty GVB Detective Stafford P#13642. We were escorted through Tropicana's casino floor where we were finally taken to a service corridor. Upon arrival, we were met by GVB Enforcement Officer(s) Bell P#13591 and Camacho P#14905 who stated that the victim was currently on the elevator en route towards us. The elevator opened and the victim was on a gurney in the care of CCFD medics. (The victim was injured at the concert and had returned to his room at the Tropicana). After verifying that hotel security possessed no information regarding an active shooter on the casino floor, the now formed "strike team" made its way towards a staging location at the intersection of Tropicana and Las Vegas Boulevard.

Mandalay Bay / Casino Level

-SCAC SGT. Chris Dennis P#9811 - ODB Officer R. Chamberlain P#6626 - ODB Officer D. Hennesy P#6736
- ODB Officer B. Hughes P#6750 - GVB Officer Rafael Camacho P#14905 - GVB Officer Levar Bell P#13591
- SWAT Officer Levi Hancock P#7083 - K9 Officer David Newton P#5278

At approximately 2250 hours, our team arrived at a makeshift staging location within the intersection of Las Vegas Blvd and Tropicana where (2) two or (3) three ambulances as well as several Patrol units had arrived. Medical support was requested at the Mandalay Bay and Sgt. Chris Dennis P#9811 organized a Strike Team and Officers Chamberlain P#6626, Hennesy P#6736, Hughes P#6750, Camacho P#14905, Bell P#13591 and I utilized a CCFD ambulance for transport to Mandalay Bay's casino level. Upon arrival, we were requested to locate / escort casualties from the "Michael Jackson Theatre". Upon arrival, our team arrived at the theatre and discovered several hundreds of people who had apparently been ordered to "shelter in place". It was determined that the casualties had been cared for and evacuated by the multiple Officers present within the theatre. Due to the adequate manpower within the theater corridor, our team returned to secure the now unguarded casino level. K9 Officer David Newton P#5278 and SWAT Officer Levi Hancock P#7083 and another unknown SWAT Officer arrived and joined our team. Radio traffic continued to be saturated with various reports of multiple shooters and victims. Officer Hancock received information from what I presumed to be the main CP and formed a team to go to an unknown floor in the hotel at which time he requested me to take the rear guard position. We awaited further instruction before leaving at which time our team continued to maintain casino floor security.

Due to the lull in the action, Officer Hennesy and I entered the main casino floor's bar and retrieved all of the water and Gatorade we could carry. (I left a note on the bar with my name and P# detailing what had been taken). We returned to the secured portion of the casino and discovered that Officer Hancock's team had

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: 171001-3519

already departed to an unknown floor. Shortly thereafter, an unknown male walked into our periphery. I informed Officer Hughes that I could not identify whether or not the unknown male was a Police Officer (due to my prescription glasses being left at home). Officer Hughes then ordered the non-compliant male to our position. After several commands, an unknown Lieutenant in Patrol uniform approached us and informed SGT. Dennis that he in fact had let the male back into the casino because "he was a guest here and it was ok." Our team maintained primary security in the casino until a request from Dispatch was received by SGT. Dennis at approximately 2330 hours to report to a new CP located in Mandalay's valet/swimming parking area.

Mandalay Bay / Hotel Floor Clearing

*-SWAT Officer Levi Hancock P#7083 -K9 Officer David Newton P#5278 -K9 Officer Ernest Morgan P#5851
-SWAT Officer James Ferrante P#13331*

Upon arrival at the "Valet CP", multiple Officers, Detectives, and SWAT Officers were staged for response. I was then contacted by SAR Officer John Lindsley-Thayer P#9171. Officer Thayer relayed that the entire hotel had to be cleared room from room, and the SWAT team was being divided into (4) four man elements, each requiring a tac-medico. Officer Thayer assigned me to (1) one of the SWAT elements while SAR Officer Donald Ruberio P#7144 switched my pack-set to the swat-simplex radio channel. I then joined my assigned team consisting of SWAT Officer Levi Hancock P#7083, SWAT Officer James Ferrante P#13331, K9 Officer David Newton P#5278 and K9 Officer Ernest Morgan P#5851.

Officer Hancock was given a master key-fob enabling entry into every room. Our assignment consisted of entering / clearing each hotel room searching for suspects and or victims. (Officer Ferrante displayed a photograph of Officer Charleston Hartfield who was reportedly missing). Hancock relayed instructions that if anything suspicious was encountered in conjunction with a locked door, forced entry would be made. We received our floor assignment and responded to the 5th floor. Upon arrival, the hotel rooms were standardized throughout the hallway; a grouping of (4) four doors together, with (2) two opposing doors on each side of the hall. (3) three CCFD firefighters were assigned to our team and remained in the circular hub at the tail of each hotel wing. Officer Hancock provided instructions that we were to "knock and announce" prior to utilizing the key-fob to make entry. In addition, (2) two Officers would be required to enter each room. (No solo clearing was permitted). Due to safety concerns, Officer Hancock suggested engaging the deadbolt upon entry, ensuring that the clearing team would not be left in a locked room. Upon entry, if an occupant was encountered, the situation was explained and each area of the room including closets and bathrooms were searched for suspicious items and or suspects / casualties.

Our team cleared the 5th, 18th, 23rd, 36th and 40th floor(s). After clearing the 23rd floor, the firefighters informed us that they "had to leave for shift change". Other teams reported the same information. We continued the search while other teams waited for a medic to join their clearing elements. Upon arriving at the 36th floor, Officer Hancock stated that we were going to take a 5 minute break and "de-gear". We all sat down while monitoring the radio. I was able to check my phone and discovered that my supervisor Sgt. Andrew Burnett P#4907 had attempted to contact me multiple times. I then contacted him and informed him of my location. The room to room search continued when we were assigned the 40th floor. Upon arrival, I observed firefighters from LVFR actively filming and taking photos of each other while sitting in the hub. We then located additional LVMPD units who were actively clearing rooms. All teams created a single team and completed the remaining floors in a fraction of the time.

Upon receiving confirmation that the hotel was cleared, all SWAT elements were ordered to return to the main CP located at SCAC. I then contacted Sgt. Burnett P#4907 at approximately 0445 hours and informed him that we had completed the floor searches. Sgt. Burnett relayed that multiple GVB units were

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: 171001-3519

staged at the entrance to the Treasure Island Hotel. I walked to Tropicana / Las Vegas Boulevard where GVB Detective Stafford transported me to my vehicle at 5050 Koval Lane. Upon arrival, the initial casualty collection point had been abandoned and was completely vacant except for (2) two vehicles occupied by persons wanting to return to their homes. The parking lot which had previously been the resting place of multiple casualties was littered with bloody clothing and medical discards. I contacted (2) two unknown Motor "Tom" units who were blocking the intersection of Tropicana / Koval Lane. The units relayed their concern reference the U-turn I had made to arrive at their position. I asked if they were in fact aware of the crime scene adjacent to their location to which they replied "no". I asked for yellow tape which was not present. I requested that they contact dispatch to which they agreed. Based upon the fact I was not confident the information would be relayed to dispatch, I returned to 5050 Koval Lane and captured multiple photographs utilizing my department issued cellphone for later uploading. I then traveled to Treasure Island Hotel / Casino where I stationed with a large contingency of GVB Detectives as well as NLVPD Patrol Officers. Our staging team secured at approximately 1000 hours.

DIVISION REPORTING: Events Planning

DIVISION OF OCCURRENCE: Events Planning

DATE & TIME OCCURRED: 10/01/2017 2208

LOCATION OF OCCURRENCE: 3901 Las Vegas Boulevard Las Vegas, Nevada 89109

NARRATIVE

On October 1, 2017, I was assigned an overtime assignment at the Route 91 Festival located at 3901 Las Vegas Boulevard under LVMPD Event 171001-3519. My call sign for the event was 173SE and my partner was Officer Steve Balonek P#6230 (172SE). We were in charge of pedestrian and vehicle traffic on the exterior of the fairgrounds of the festival at the intersection of Giles and Mandalay Place Drive. The location was on the far southeast end of the venue directly behind the main stage. Our initial hours of operation were tentatively from 1300 hours until 0100.

At approximately 1700 hours, myself and Officer Balonek observed a flashing light (possibly a strobe light) facing east about 10 floors up of the Mandalay Hotel. Officer Balonek obtained his binoculars and stated the light appeared to be 8 to 10" in diameter and it was positioned at the bottom of the window with the drapes pulled around it. Balonek further stated it appeared there was a television on in the adjoining and he could not see any movement inside the room.

At 2208 hours, during a song being performed by Jason Aldean, we heard a series of three to four loud bangs coming from the southwest portion of the stage. Approximately 30 seconds later, we heard the same sound and determined it to be gunfire. The bursts lasted approximately 3 to 7 seconds in length coming from what sounded like a fully automatic rifle. The rounds were hitting the ground close to our location which was directly in the middle of the street adjacent to my work vehicle (2017 Ford F-150 vehicle 4898) and sporadically in the vicinity both north and south of our immediate location. Officer Balonek and I immediately took a position of concealment and attempted to locate the source of the gunfire. Officer Balonek stated he saw a figure near the top floors of the Mandalay Bay hotel who appeared to be standing on a shooting platform and approximately 4 to 6 feet back from the window. Simultaneously, over a hundred concert attendees began to flood out the rear exit near the stage. We motioned to the attendees to come toward our location and continue to run northeast as quickly as possible.

During the commotion, an unknown citizen gained access to my vehicle (4898), but was subsequently removed by other attendees and or friends. Nevada Highway Trooper Niswonger arrived a short time later and took up a tactical position and assisted us in evacuating patrons from the venue. There were several reports of additional "active shooters" in and around the entire Las Vegas Boulevard. As we attempted to access the

Mandalay Bay-Active Shooter Incident

SUBJECT

DIVISION REPORTING: <u>Patrol</u>	DIVISION OF OCCURRENCE: <u>Convention Center Area Command (CCAC)</u>
DATE & TIME OCCURRED: <u>10/01/2017</u>	LOCATION OF OCCURRENCE: <u>3901 S. Las Vegas Boulevard, LV, NV 89119</u>

NARRATIVE:

On October 1, 2017, I (656) responded to an active-shooter event at 3901 S. Las Vegas Boulevard, the Route 91-Country Music Festival. At 2208 hours, a unit (169SE) working overtime at the venue, broadcast radio traffic which advised that gunshots were fired, and multiple victims were down. During the minutes following, numerous individuals called 911 to report the same.

While I was en route to the event, various details were broadcast. Initially it was believed the shooter was inside the venue, then from an adjacent street, and finally from the Mandalay Bay Hotel. Shortly before my arrival, units were advised to stay off Las Vegas Boulevard. I arrived and Tropicana and Las Vegas Boulevard where I met with multiple patrol units who were stopping all traffic. I advised I would establish a Command Post (CP) at my location, per a request made by Lieutenant R. Spencer. Captain Pelletier then directed the CP and a Staging Area be established at South Central Area Command (SCAC). Shortly thereafter, I took over the duty of managing the casualty collection location.

I worked collectively with a Clark County FD captain to establish Force Protection Teams to accompany paramedics into the crime scene so medical triage could be initiated. Several vehicles arrived which were loaded with injured/bloody victims whom were subsequently transported to area hospitals. Field Training Officer (FTO) Brenda Najarro acted as my scribe.

As the event continued, multiple "shots fired" calls were made to dispatch that reported gunshots at the intersection of Tropicana and Las Vegas Boulevard. Officers took cover behind vehicles posted within the intersection. At one point, a group of firefighters ran from the Tropicana Hotel and advised gunshots were fired. I broadcast the traffic.

The units who responded to the event from my squad (CC33) includes: FTO Tomas Peralta #13912 and his trainee, Officer Austin Lea #16397; FTO Chris Gibson #14009 and his trainee, Officer David Pangan #16097; FTO Josh Haynes #14010 and his trainee, Officer Brady Cook #15280; FTO Larry De Souza #13979 and his trainee, Officer Anthony Mariscal #16415; FTO David Westhead #14467 and his trainee, Officer Derek Flamm #14950; FTO Brenda Najarro #12616 and her trainee, Officer Steve Garrett #14943; FTO Justin Lefler #14745 and his trainee, Officer Tyler Peterson #16439; and FTO Garrett Dobbins #14910 and his trainee,

Officer Eduardo Pazos-Cazares #16450; and trainee-Officer Spencer Freeman #16127. Officer Derek Stebbins #14149 did not respond to the event because he was assigned to an event at Sunrise hospital; however, he assisted with incoming victims at Sunrise Hospital.

Minutes after FTO Haynes and Officer Cook arrived, Officer Cook was shot in the right shoulder. The body cam footage captured by FTO Westhead's camera captured the audio. While observing officers hiding behind a patrol car to avoid gunfire, I overheard Officer Cook yell "I've been shot! I've been shot!"

Officer Haynes broadcast that an officer was shot, and he was en route to University Medical Center (UMC). A short time later, I learned Officer Cook was struck/injured.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: 171001-3519

On 10-01-2017 at approximately 2210 hrs. I received a call from Sgt. Ike Ziros telling me to turn on the radio to CCAC channel. I did so and heard the radio traffic of the active shooter from Mandalay Bay. As I was listening I heard that the officers seemed to need additional help, especially at the concert venue. I called my Captain, Will Scott, and asked him if I could call out the Major Violators Section (3 squads) and respond to help. He agreed and I called out my three squads informing them to meet me at the CP located at SCAC.

I met my squads at the CP at SCAC at approximately 2300 – 2310 hrs. I went to the CP and was requested to take my detectives to the Route 91 concert venue location at Giles and Ali Baba streets. We parked and entered through Gate 5 in full tactical wear. I had been asked to "clear" the venue of possible victims and witnesses.

I divided my detectives into groups of two and we spread out and started walking through the venue grounds. We came across a witness citizen just inside the gate and directed him to wait outside the gate on Giles St. We continued walking north through the grounds and subsequently cleared two different sets of porta-potties and all the food trucks/stands. I came upon the medical tent by Gate 2/3 and witnessed four dead bodies (two men/two women) lying on the ground by the tent. One victim had been placed in a wheelbarrow and the other three were lying in close proximity to each other just outside the tent opening. We found a citizen sitting next to one of the dead women holding her hand. We respectfully asked him to leave and he agreed. There were two MGM security guards who were standing there also and we asked them to stand by the four bodies while we continued to search the grounds.

Continuing our search north we came upon three metro officers who were inside a trailer attempting to watch video of the venue. We were not advised of their presence or reason for being there by the CP or dispatch.

I walked through the main stage area and saw at least 18-22 dead bodies strewn throughout the field area. We also came upon several security and LVMPD uniformed officers who were staged to the far south by the performer trailers.

We found three female employees of a bar hiding under the bed inside a trailer and helped them walk out of the grounds and onto Giles St.

After clearing the grounds, I advised the CP of what we had found and that we were done searching. We were then asked to come back to the CP for further deployment.

We did not get another deployment upon arriving back at the CP and were then told to secure about 0230 hrs.

SYNOPSIS:

Police Units of the Downtown Area Command Patrol Investigative Section were tasked with follow up on the Active Shooter Incident. The suspect was found to have rented rooms in the Downtown Area during another Special Event called LIFE IS BEAUTIFUL. This report is the results of a portion of the investigation.

SUSPECT:

1. STEPHEN CRAIG PADDOCK:

DETAILS:

Affiant was tasked with follow up on the active shooter incident and the Mandalay Bay Hotel on 10/01/2017. Affiant learned the suspect had rented one of three rooms through a service KNOWN as Air BNBEXECS. This service provides hotel or condominium rooms for clients wishing accommodations for staying in Las Vegas.

Affiant was contacted due to room number 1703 being available for rental at this 150 North Las Vegas Boulevard address. The room was rented from Air BNB EXECS Representative [REDACTED] by the suspect between September 24-28-2017.

Information gained from [REDACTED] involved PRICES of the ROOM 1703 and the TEXT correspondences between [REDACTED] and PADDOCK. This information was passed onto the TASK Force assigned with the investigation via Sgt. D. Rhoads P#6601.

There were no other correspondences between [REDACTED] and Paddock except what was related to the room and its rental. Respectfully

T. Riesselmann,
P#3956

Active Shooter Incident

SUBJECT

DIVISION REPORTING:	<u>PD Investigations</u>	DIVISION OF OCCURRENCE:	<u>Patrol</u>
DATE & TIME OCCURRED:	<u>10/01/2017 2200 hours</u>	LOCATION OF OCCURRENCE:	<u>Rt. 91 Festival</u>

NARRATIVE:

On 10/01/2017 at approximately 2230 hours, I was alerted via text message from my squad of four detectives they had arrived on an active shooter call. At the time of the incident, I was taking my lunch break so I immediately checked my radio for current radio traffic and drove code 3 to the South Central Area Command where I am assigned. I was dressed in plain clothes, so I ran to my locker where I put on my vest and grabbed my tactical gear. My plan was to go to the Mandalay Bay where my squad was currently at, but the staging area was being set up in the front parking lot of the station so I went out to see if I could assist.

Lt. Carlos Hank was in charge of the staging area and there was some confusion trying to get everyone assigned so I jumped in to help. I asked Lt. Hank what I could do to help and he assigned me to begin checking in arriving officers and assigning them a strike team number. This was completed by writing the teams on the hood of three different patrol cars. We worked in conjunction with the fire department, North Las Vegas, Henderson, Nevada Highway Patrol and Homeland Security. We assigned over 55 strike teams during the course of the night and gave them different assignments as needed.

During this time I stayed in contact with my squad by text messaging. Jesse Berg, P# 7201 was assigned to cameras inside the Mandalay Bay. Detective Farrah Edge, P# 8645, Verl (Craig) Conover, P# 8388 and Stephen Trzpis P# 8563 formed into a team with other officers and went up to floor 32. Det. Edge & Conover began evacuating guests staying on that floor. Det. Trzpis carried the shield to provide protection for the team he was formed with and ultimately entered the apartment with the direction from a SWAT officer who was on his team. After the room was cleared, my detectives responded back to staging.

NARRATIVE:

Officer Involved: Sergeant Todd Richter P#4374

Details:

On 10/01/17 at approximately 2214Hrs, I Sgt. T. Richter was notified by Det. D. Cordero of an active shooter call working on CCAC channel. I was off duty and at home at the time. There were no further details at the time. Upon learning that it was a confirmed incident and there was a possibility of numerous active shooters on Las Vegas Blvd, I contacted my supervisor, A/Capt L. Desimone and requested my squad be activated for a response. It was immediately granted and I notified all of the members of SC26 of the situation and to respond to SCAC for further assignments.

Upon my arrival to SCAC, I immediately dressed out and reported to the staging area. Lt. C. Hank then assigned me a Strike Team and was directed to head over to the Harley Davidson across the street to secure and protect any witnesses from the incident. My strike team secured business, but later learned that the witnesses were responding to another location and officers were not needed at our location.

I reported back to the staging area and I was made an assistant to Lt. Hank in command and control functions. The officers and junior sergeant from my task force were reassigned to other duties. I assisted at the staging area for the remainder of the incident until 0600hrs, when I became part of the Calls for Service "A" Roster.

Event #: 171001-3519Active Shooter ResponseSUBJECTDIVISION
REPORTING: Community Policing - EACDIVISION OF
OCCURRENCE: Patrol Investigations - EA36DATE & TIME
OCCURRED: 10/01/2017 @ 2230 hoursLOCATION OF
OCCURRENCE: Route 91 Festival / Sunrise Hospital,
3186 S Maryland Pkwy, LVN 89109NARRATIVE:

On 10/1/2017 at 2300 hours, I, Detective C. Garcia P# 8913, was logged on and operating as unmarked Detective Unit PD80. I was assigned to the Enterprise Area Command Patrol Investigations section, squad EA36.

At the time of the event, myself along with Detectives of EA36 were monitoring the radio when we overheard the radio broadcast of the Active Shooter event. As we prepared to respond to the CP, we learned that almost all EAC marked Patrol units had been deployed to critical infrastructure within the area command with the remaining dispatched to the scene of the Active Shooter. Detectives were ordered to stand down and remain at EAC to augment "Stay at Home" squads as per the MACTAC policy.

On 10/02/2017 at or about 0000hours, EA36 was deployed to Sunrise Hospital with little to no instructions. Upon arrival, we met with patrol officers and Capt. Splinter who had assumed control over the security of the hospital. We observed patrol officers maintaining a security perimeter around the hospital with rifles and barricades deployed. Detectives learned that officer's on scene had been tasked with security and not making contact with or identifying any victim's.

Detectives then began making contact with the injured in an effort to identify victim's, witnesses, and any deceased. In total, Detectives identified approximately 115 victims and gathered their information to include names, date of birth, addresses and phone numbers. Along with obtaining identifying and contact information, detectives conducted short interviews with those victims who were able to speak. Detectives collected any intelligence regarding the incident to include the victim's locations and injuries. Among those interviewed, most reported hearing what they described as fireworks before seeing other attendees running in various directions. Most victim's reported being injured while attempting to flee the area from the gunfire.

During this process it was learned that Officer Charleston Hartfield has been transported to an unknown hospital where he had expired. At the time, Capt. Splinter advised me that he had not yet been located and his family was at UMC attempting to locate his body. Having previously worked with Officer Hartfield, Capt. Splinter and I closely examined the deceased in an effort to locate and identify the body of Officer Hartfield. Among the deceased, we located the body of a male matching the description of Officer Hartfield but no

identification could be found in his property. After reviewing his social media profile to view current photographs of him, we were able to positively identify Officer Hartfield's body through various marks and tattoos. That information was the passed along to the Command Post to make any arrangements and notifications.

After collecting information from victims, Detectives began assisting hospital staff in the identification of the remaining (13) thirteen deceased victims which had been moved into a separate area of the hospital. After receiving approval from the coroner's office and direction from Capt. Splinter, Detectives began the process of identifying the deceased by searching for any identification from the deceased bodies. During this process it was discovered that approximately half of the deceased did not have any forms of identification on their person. Detectives then documented physical characteristics, identifying marks, tattoos and any other information on each decedent in an effort to assist with identification. Once a decedent had been positively identified, the identifying information was passed on to Sunrise Hospital personnel who could make the proper notifications.

Detectives then assisted hospital staff in contacting friends and families of the victims who were flooding the hospital waiting area and information desks. Detectives began collecting information about any missing or deceased persons. Detectives also worked with hospital staff to locate and identify any unidentified victim who was being treated and unable to speak. While working with hospital staff, detectives made rounds through the different areas of the hospital to locate and identify victims to help with reunification with family and friends.

During this process, Detectives also worked in conjunction with the Federal Bureau of Investigation (FBI) in an attempt to coordinate a proper response and assist Sunrise Medical with their mass casualty protocol. Detectives shared information with the FBI about victims to help further the investigation.

ROUTE 91/MANDALAY BAY ACTIVE SHOOTER

SUBJECT

DIVISION REPORTING: <u>CCAC/PATROL/CC31</u>	DIVISION OF OCCURRENCE: <u>CCAC</u>
DATE & TIME OCCURRED: <u>10/01/17 2200HRS</u>	LOCATION OF OCCURRENCE: <u>3950 S LAS VEGAS BLVD, LV, NV 89109</u>

NARRATIVE:

On 10/01/17 at approximately 2200hrs, I Officer R. Chase P#13533 and Officer R. Theobald P#6468 were operating as marked patrol unit 9M31, working CCAC swing shift. Radio traffic came out of an active shooter at Route 91 festival located across the street from Mandalay Bay. We then went enroute to the incident.

We then arrived in the area of the Route 91 festival when updates were coming out that the shooter was possibly in Mandalay Bay, we then headed to Mandalay Bay. Upon Arrival to Mandalay Bay, we made entry at the west valet, eventually meeting up with and joining a strike team that was clearing the west side casino/convention center area. While clearing the casino, updates were coming over the air that there were possibly more shooters going into other casinos. We then split the strike team up to send half to the other casinos and half to stay and clear Mandalay Bay. We then ran to my SUV and loaded up the new strike team to go to the Paris Hotel/Casino to address the other possible shooter.

Upon arrival to the Paris, we did a quick clear of the casino floor and received updates from security that they haven't heard any shots fired. At this time, there was an update of a male entering the Bellagio with a rifle. The strike team then ran across Las Vegas Blvd to the Bellagio to address this possible shooter. Upon arrival to the Bellagio, contact was made with Bellagio security who also advised they heard no shots fired on their property. At this time we began to realize the new calls of shooters were either diversions to get police spread out or it was citizens calling in plain clothed officers. We then loaded up the strike team to go to Tropicana/Las Vegas Blvd for updates.

Upon arrival to Tropicana/Las Vegas Blvd, Officer Theobald and I became "Force Protection 6" to assist FD/Medical in clearing areas. We responded to Tropicana Hotel/Casino first, clearing the rooms/locations of possible injured/deceased. We then responded to New York New York Hotel/Casino to do the same. After that, we then went to the Mandalay Bay to assist in clearing the Hotel floors.

Upon arrival to Mandalay Bay, we became part of another strike team and received instructions from SWAT to clear specific floors, room by room, to look for any injured, deceased, or anything suspicious to report. After clearing the assigned floors we then made the journey back to our patrol car to head into the station.

Route 91 Festival Shooting
SUBJECT

DIVISION REPORTING: <u>CCAC</u>	DIVISION OF OCCURRENCE: <u>CCAC</u>
DATE & TIME OCCURRED: <u>10-1-17 2204</u>	LOCATION OF OCCURRENCE: <u>MGM Festival Grounds</u>

NARRATIVE:

On 10-1-17 at approximately 2200 hours, I, Officer C. Cooney P#13581 and Officer A. Saleem P#13393 were operating as marked patrol unit 629A. I was driving the patrol vehicle and had parked in the southeast parking lot of the Tropicana hotel while Officer Saleem and I were performing administrative Field Training tasks.

Minutes later, we heard the first radio broadcast from the Special Events unit announcing that there were shots fired at the Route 91 festival. I immediately activated my body worn camera and began to drive southbound through the parking lot towards East Reno Avenue. Steady automatic gunfire could be heard as we responded Code 3 down Reno and onto Giles St. Officer Saleem announced our arrival on the radio within seconds of the initial broadcast. We heard the radio traffic that there was an active shooter inside the festival and I parked the squad car on Giles. As Officer Saleem and I exited our vehicle, we observed the initial crowds of people exiting the festival. I was armed with a shotgun and Officer Saleem drew his handgun and we ran towards the first open gate on the northeast corner of the festival.

Automatic gunfire continued as we ran down Giles Street and I yelled for the crowds to run to safety. I posted myself at the open gate with Officer Saleem and tried to assess the layout of the festival. A passerby told me, "Southwest corner, southwest corner." Officer Saleem and I were joined at the gate entrance by Officer Lefler and his Officer-in-training Peterson. We now had a 4-man STRIKE team formed and I noticed that Officer Lefler was armed with an AR15 so I advised him to take the point position. I told the team that the threat was coming from the southwest corner and we moved into the festival as an element.

As we moved, our team was continuously yelling to the fleeing crowds to run out to the street to safety. There was mass confusion and panic in the crowds. Officer Lefler and I tried to seek the best cover we could as we were in a concession area. We moved west as a team element across the concession lane and proceeded south towards the open audience area of the concert. As we neared the end of the row of concession areas, a long burst of automatic gunfire was heard. Officer Lefler and I observed that the rounds were impacting on the ground directly ahead of us and the audible crack of the impacts was drawing closer to our position. I yelled out to the team that the gunfire was getting closer and Officer Lefler yelled out for the team to move back.

The team drew back to the end of a nearby food concession trailer and took the best cover we could find. I immediately moved to the west part of the trailer in an attempt to observe the shooter's position. To our west I

Event #: LLV171001003519

observed fleeing crowds across a large and poorly-lit open area. I scanned the area to the southwest while gunfire was heard. While I heard rounds impact near our position, I could observe no muzzle flashes to return fire. A flood of civilians poured past our position in a desperate attempt to escape the gunfire. Many were telling us of relatives that were shot and down while others in a shocked state of disbelief at what was occurring. Our team advised everyone to run out of the festival as fast as they could.

Automatic gunfire continued and the sound of impacts again grew closer to our position. I advised the team that rounds were impacting near us and I swapped positions with Officer Lefler so that he could potentially return more accurate fire with an AR15 across the large open ground than I could with my shotgun.

Our team formed a tactical "L" at the concession stand with me and Officer Saleem covering the south and Officers Lefler and Peterson covering the west. Civilians huddled around our position for safety. Knowing that we really just had concealment and not solid cover, our team yelled at everyone to keep running until they were out of the festival. The only thing our team knew for certain was that we were receiving heavy incoming fire from the southwest. The shooter was definitely trying to fire into the crowds that were fleeing towards the east and northeast gates.

I asked many fleeing people what they saw in an attempt to gain a suspect description or location. The answers I received were that there were at least three shooters inside the festival itself, that the shooting was coming from the Mandalay Bay or Delano, or that the shooting was coming from the outer fence to the west of our position.

I observed several civilians providing aid to others by carrying the wounded out on wheelbarrows or makeshift stretchers. Some civilians disregarded our warnings to leave and instead ran back into check on a missing or injured loved one. Despite the carnage all around us, some people did not seem to understand the danger they were in. I even observed two men in the crowd get into fist fight for unknown reasons. One of the men was punched unconscious by the other and two other men dragged the man to safety.

Once the gunfire subsided after minutes of barrages, our team was able to move up to the end of the concession area and the beginning of the open field of the audience area. We still could not observe any suspect movement. What laid before us was an open, dark field scattered with the injured, deceased, and those remaining to render aid. We continued to try to gain intelligence about suspect description or position but there were still no clear answers to be had. Two more Officers armed with rifles joined our team and the fluorescent lights of the concession stand we were huddled behind were broken so our location would not be revealed to the shooter. The entire duration of our actions were based on the assumption that there could be multiple armed assailants inside the venue. We proceeded to conduct MACTAG operations based on this.

Officer Lefler and I were still on point and formulated a plan to cross the open field using bounding overwatch. The only nearby cover was a bar located in the center of the field. Beyond the bar was several dark trailers that posed an unknown threat. Officer Lefler covered the trailers with his rifle and I informed the rest of the team what the plan was: that I would run to the center bar with one other Officer in bounding overwatch. Officer Saleem volunteered to go with me and we both ran to the center bar and cleared it for the rest of the team to move up.

The team proceed to move up and clear the center trailers that led to the main stage area of the concert. Our team was joined by several other Officers at that point whose names are unknown to me. While clearing the main stage area, we observed dead bodies and more wounded. We continued to warn the lingering civilians that there was still a present threat due to the suspect not being confirmed located or down.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: LLV171001003519

Our team cleared all of the main stage, trailers behind the stage, and the backstage VIP area as we moved to the southwest corner of the festival grounds near Mandalay Bay road and Las Vegas Blvd South. As we cleared each area, I took notice that there were no shell casings on the ground of the areas we checked inside the festival. Along the far western wall, we discovered three Officers that had been pinned down. One of the Officers on our team that was armed with a rifle remained with those Officers as the rest of us evacuated a civilian who had been pinned down there.

We brought the civilians back to the area we had just cleared, which was where the performers' tour buses were located. We rendezvoused with Lieutenant Spencer and other Officers there. The information coming over the radio was of active shooters at resorts all over Las Vegas Blvd South. Concerned that the attack on the concert was the first of a broad-scale attack, Lieutenant Spencer ordered us to shelter in place with the remaining civilians to lay on the ground inside the tour buses while Officers formed a protective perimeter around the buses, some of which had bullet impacts.

Lieutenant Spencer took special care to check on each Officer on the perimeter and he ensured that we had water and were able to tell our loved ones we were okay. He also asked me if I had any suggestions to improve the plan but I told him that I agreed that this was the best plan with the information we had.

It was not until the lull in the action as I was on my perimeter spot in the southwest corner of the venue that another Officer told me that the news was reporting that there was a hole in the windows of the Mandalay Bay. Even then, I needed assistance to spot the hole in the window due to the darkness of night.

Officer Frederick arranged for a passenger van to evacuate the remaining civilians and take them to the church at Reno and Giles where the Mobile Command Vehicle had been set up. Within two van loads, all of the civilians were evacuated from the backstage area. Officer Saleem and I were at the Mobile Command Vehicle and Sergeant Bulmer instructed us to take [REDACTED] his bodyguard, and his pregnant wife to the airport. While enroute to the Signature private airport, [REDACTED] told us his experience of the shooting from his perspective. [REDACTED] said that he was on stage playing when he heard the first few pops. He said he was confused like everyone was and looked around but didn't see anything out of the ordinary. The next large barrage of fire he said was so loud to him that it sounded as if someone was right next to the stage firing shots. At that same time, [REDACTED] told us that he could see people in the audience dropping to the ground "in waves". Someone backstage yelled out to [REDACTED] that it was gunfire and for him to get down. That's when he ran off the stage and went to protect his pregnant wife. [REDACTED] was inside the tour bus that I protected on our perimeter until he was evacuated.

Once Officer Saleem and I returned to the church and the MCV, we were assigned by Sergeant Bulmer to watch one of the gates on the east side of the festival until we were relieved.

EA14 Active Shooter Response

SUBJECT

DIVISION REPORTING: <u>CPD</u>	DIVISION OF OCCURRENCE: <u>CPD</u>
DATE & TIME OCCURRED: <u>10/01/17 - 2205</u>	LOCATION OF OCCURRENCE: <u>3950 S Las Vegas BLVD LVN 89119</u>

NARRATIVE:

On 10/07/17 at 2205 hours, I, SGT Hee P#13584, was operating as marked CPD sergeant over Enterprise 14. Under my command were Officer Tromboni P#9331, Officer Childers P#14833, Officer Prsbrey P#14751, and Officer Hinkel P#15074. At approximately 2215 hours, we were conducting pre-shift briefing when we were informed by a swing shift detective about the active shooter incident at the Mandalay Bay.

My squad responded directly to the command post that was being set up at the South Central Area Command front parking lot and arrived at 2225 hours. Officer Tromboni deployed his patrol rifle and we donned our helmets and gas masks. We reported in to LT Hank, who was setting up the command post. We were designated as Strike1 and were tasked with rescuing stranded and injured persons at Four Seasons and S Las Vegas BLVD. Officers Anders P#12877 and Abraham P#9877 were unassigned, so I took them under my command and added them to Strike1. Officer Abraham also deployed his patrol rifle. Upon arrival, LT Desimone P#4713 was already set up at the intersection with an officer and advised us that the stranded citizens were already extracted.

Under LT Desimone's direction, we assisted him with evacuating citizens from the nearby businesses and patrolled the back streets for injured citizens after updating the incident commander with our re-tasking. We also directed witnesses and victims to the debriefing location. After the intersection was stabilized, SGT Skenandore P#13341, who was at the Michael Jackson Theater under LT Desimone's command, requested additional units. LT Desimone directed that Strike1 would respond. After reporting the update to the incident commander, I left Officers Childers and Prsbrey under LT Desimone's direct command and responded with Officers Tromboni, Hinkel, Anders and Abraham.

Upon arrival at the Michael Jackson Theater at approximately 0115 hours, we were advised by SGT Skenandore that the public area was already cleared and citizens were being assisted with sheltering in place pending evacuations. He requested that I do the same with the employee area. Strike1 deployed to the employee area and cleared the building, while checking for suspects and injuries. Once this was done, we updated the incident commander with the status of our area and provided protection until evacuations could proceed. At approximately 0600 hours, evacuations were approved by the command post and they were completed without incident.

At approximately 0700 hours, I responded to the command post with my assigned officers to check out with the incident commander and proceeded to Enterprise Area Command where we secured our callsigns.

EA14 Active Shooter Response

SUBJECT

DIVISION REPORTING: <u>CPD</u>	DIVISION OF OCCURRENCE: <u>CPD</u>
DATE & TIME OCCURRED: <u>10/01/17 - 2205</u>	LOCATION OF OCCURRENCE: <u>3950 S Las Vegas BLVD LVN 89119</u>

NARRATIVE:

On 10/07/17 at 2205 hours, I, Brennan Childers P#14833 as marked patrol unit 105 was in the ACIO office at EAC when I heard of a 415A on CCAC being broadcasted on EAC's radio channel. It was also at this time that I heard a detective running down the hallway to presumably tell everyone who was in the briefing room. Upon hearing this, I ran to my patrol vehicle.

Initially, I went to our rally point at Sunset/Jones, missing the info of going straight to SCAC. I then met up with my squad at SCAC who was still donning their riot helmets and gas masks. Once with the squad, I took down everyone's names, P#'s, call signs, etc and gave them to our sergeant A. Hee. We were assigned as Strike Team 1.

It felt as though we were standing by for a long period of time. In retrospect, I felt this way because my radio was on SCAC, unaware of the action being taken on CCAC. Initially, we were assigned to Reno/Giles and were told that people were 'pinned down' in vehicles, and we were unsure if the shooter was still looking down on the area. I was not aware at the time that we were at the venue, as I thought it was across the street within the footprint of the Mandalay Bay.

We were on scene for maybe 5 minutes, before we were reassigned to the intersection of Four Seasons and the Boulevard. We met with some other officers, and assisted in evacuating people who were in businesses along the east side of the strip, south of the venue. Again, we were unaware if the shooter(s) was/were still actively watching.

Once the buildings were secure, we spent an extended period of time at this intersection, instructing pedestrians to walk south and addressing suspicious vehicles and pedestrians that were leaving the Mandalay Bay. My primary partner was Officer Charli Prisbrey P#14751. We stood at the southwest corner of the Four Seasons/Boulevard intersection. It was here that we saw Instagram videos of the shooting, speculated there was only one shooter, and ultimately got word that the room had been breached and a suspect was down. However, the influx of calls stating that there were "10 down at the intersection of Trop and the Boulevard" and shots fired at Hooters, NYNY, Tropicana, MGM, etc caused us alarm, thinking that there may have been more shooters.

At one point, Sergeant Hee left and took with him two of the people in our strike team to handle people sheltering in the Michael Jackson Theatre at the Mandalay Bay. Officer Prisbrey and I stayed at the intersection under the direction of Lieutenant Desimone. On two occasions, Lt Desimone left the intersection in

his vehicle, but returned quickly. I wouldn't say that it was all that big of a deal that he left. We also had another officer who was working the venue, who had a rifle. We stayed there for over an hour, before a call on the radio asked for available officers to come back to the CP for reassignment.

Officer Prsbrey and I went back to the CP, and were eventually reassigned to another strike team that was helping Sergeant Van Nest hold a perimeter on the venue for evidentiary purposes. It was here that I was able to see the broken windows at the Mandalay Bay, the blood trail northbound on the sidewalk, several 419's inside the venue, and several shot patrol cars. Sergeant Van Nest is someone I look up to, and I was happy to be there with him. Prsbrey and I stayed there for an extended period of time, moving along news reporters who were setting up nearby and having pedestrians on the other side of the street continue southbound.

Around 0600, Prsbrey volunteered us to help motor officers shut down westbound Tropicana, east of the strip. We aided them with cones, tape, and our vehicles. It was at this time that I observed one 419 in the center of Trop/LVB and another on the southeast corner in front of Hooters near a 401. We remained there aiding them until we were relieved by Henderson PD around 0720 hours. Then we went back to the CP, I got back in my patrol car, and we ended our shift.

Sergeant Hee, who was aware of the fact that [REDACTED] and I were at the scene of the carnage, did an amazing job in making sure we were okay. In the days following, he went above and beyond for us. I was born and raised in this city, and this was a devastating day for me. Since then, I have been overwhelmed by the community outreach, the stories of heroism, and the overall emotion associated with this call.

Vegas Strong.

DIVISION REPORTING:	<u>Patrol</u>	DIVISION OF OCCURRENCE:	<u>Special Events</u>
DATE & TIME OCCURRED:	<u>10/01/2017</u>	LOCATION OF OCCURRENCE:	<u>Route 91 Concert/ Mandalay Bay Casino</u>

NARRATIVE:

On 10/01/17 I Officer Gilbert P #13624 was working the Route 91 concert as an overtime unit. My area of responsibility was gate 3 located at the northwest section of the concert. At approximately 22:00 I heard several loud pops that came from the area of the Mandalay Bay. I initially assumed that the pops were fireworks and looked up in the sky in order to see them. As I looked up I heard another volley of pops and heard people screaming. I then realized that it was not fireworks but gunshots coming from that area.

I then ran southbound toward other officers and where the people were screaming. I reached the far northwest end of the concert grounds and met up with about 10 more officers. Myself along with the 10 other officers were pinned down behind a brick wall with about 30 civilians. A plan was devised to get the civilians out of the area. Once the civilians were safely out of the area we performed bounding and over watch in order to get across Las Vegas Blvd to the Mandalay Bay Casino.

Once on the Casino grounds the group of officers that I was with made entrance into the Mandalay Bay Casino through the House of Blues Theater. Once we cleared the theater we made our way to the casino floor. Once at the casino floor my team moved through and made contact with about four stragglers that had not made it to cover yet. The team then discovered approximately 1,000 people hiding inside the Michael Jackson Theater. The team gathered the people and locked everyone inside the theater. We stood watch over the people inside the theater and attempted to evacuate them in busses away from the casino.

The Sergeant that I was in was Sgt. Skinadore. I am unsure of his P number but believe he works out CCAC. I am also unaware of the names of all the guys that were in my strike team. I believe some of us were working overtime at the event and a couple were assigned to CCAC.

Route 91 active shooter response

SUBJECT

DIVISION REPORTING: <u>Patrol</u>	DIVISION OF OCCURRENCE: <u>CCAC</u>
DATE & TIME OCCURRED: <u>10/1/2017 2205</u>	LOCATION OF OCCURRENCE: <u>Mandalay Bay Las Vegas, NV</u>

NARRATIVE:

FYI

On 10/1/17, the following Homeland Security Saturation Team (HSST) Officers responded to the active shooter event that occurred at the Mandalay Bay: Officers M. Gass P#13643, C. Leavitt P#8737, S. Greene P#8918, C. Young P#15462, D. Garmendia P#14208.

The above Officers including the rest of HSST were on a RDO's when this event occurred, many of which had family and friends attending the Route 91 concert. When initial reports gun fire occurred many of those friends and family present contacted those Officers in panic. HSST was given permission by the Sergeants to activate and report to Headquarters as soon as possible. Upon arriving at headquarters there had been additional reports of gunfire at several locations, which we later found to be false, Officers rapidly deployed to the several locations to stop any additional incidents. Once we found those locations safe we reported to the staging area where the above Officers received further assignments, being designated as strike team 45.

Officers were briefed by SWAT at the Mandalay Bay valet and designated as a Rescue Protection Team (Rescue 2) tasked with clearing several hotel room floors while searching for any persons injured and additionally anything else suspicious or could have been related to the previous active shooter. Rescue 2 was assigned with fire rescue medics. Rescue 2 was assigned hotel levels 11 and 34. Officers knocked on each and every hotel room checking on guests. Once Rescue 2 concluded their assignments the team was broken down and the above Officers returned to the staging area for further assignments. All of the above Officers are rifle certified and deployed their rifles during this event, with the exception of officer C. Young.

The remaining HSST Officers were assigned to cordon off an area of Tropicana and Las Vegas Blvd. There was a casualty laying on the street. The area was to be cordoned off until the Coroner could arrive and process the body. While the coroner arrived and processed the body HSST held up white blankets blocking all views from the media and public on pedestrian bridges.

DATE & TIME OCCURRED: <u>10/1/17</u>	LOCATION OF OCCURRENCE: <u>Mandelay Bay</u>

NARRATIVE:

On 10/1/17 around 2208 hours I Officer J. Larsen P# 13651, Officer N. Santiago P# 13025 were on a 421a call when we heard dispatch announce an active shooter at the Mandaley Bay resort reference event 171001-3519. Officer Santiago and I then self-dispatched ourselves to the active shooter event and headed toward Mandaley Bay. As we were approaching the area of Decatur and Hacienda we heard supervisors calling for units to block of roadways leading to Mandaley Bay. I then headed to Hacienda and Aldebaran Ave to control traffic at that intersection. Due to medians in the road there traffic could not u-turn so Officer Santaigo then went to Hacienda and Polaris to control traffic from coming east from Polaris. As we arrived many people were running west across the Hacienda bridge over the I15 freeway. At that time there was call details advising that the shooter was possibly on the roof of Mandaley Bay so we were ushering people escaping to hide behind the office buildings on the northeast corner of Hacienda and Polaris. We then manned these posts until around 0800 hours.

Active Shooter Incident – 10/01/2017

SUBJECT

DIVISION
REPORTING:

CPD

DIVISION OF
OCCURRENCE:

TSD

DATE & TIME
OCCURRED:

10/02/2017 @ 0100

LOCATION OF
OCCURRENCE:

Sunrise Hospital

NARRATIVE:

On 10/01/2017, I began receiving alerts via text message that there was an active shooter incident occurring on Las Vegas Boulevard. Shortly thereafter, I received notification that my squad had been activated for AB rosters. I immediately contacted my squad (SE29) and instructed them to be dressed out at ready to handle calls at 0600 on 10/02/2017.

After notifying my officers, I showered and drove to SEAC, arriving around 0200 hours. Lieutenant John Liberty, P# 5844, Sergeant Damon Young, P# 8252, and I began working on deploying resources within Southeast Area Command to protect critical infrastructure (a water treatment plant and electrical relay stations), numerous casinos on Boulder Highway, and our hospitals, which included Sunrise Trauma.

After resources had been deployed and A roster officers began arriving, my squad was assigned to protect the hospitals in the area. Officers Gaetano Losauro, P# 15761 and Kevin Schakaford, P# 15908 were assigned to Henderson Hospital. Officers Sukhvir Singh, P# 13322, Lucas Marshall, P# 13755, Brandon Bourque, P# 15725, and Preston Ellis, P# 16459 were assigned to protect Desert Springs Hospital. Finally, Officers Jason Rapozo, P# 8575, Zachary Waterhouse, P# 16148, Shale-Anthony Souza Lindsey, P# 16179, Amanda Montalto, P# 16434, Matthew Rowe, P# 13114, and William Ramos, P# 14899 were assigned to protect Sunrise ER/Sunrise Trauma.

After all protection details had been staffed, Lt. Liberty, Sgt. Young, and I began visiting the hospitals to assess if anything else needed to be done. When we arrived at Sunrise, we quickly realized that there was a great deal that needed to be started. We began making contact with witnesses, families, and concerned citizens who could not find their loved ones. We began collecting information from the hospital regarding intakes of injured people so we might be able to help people locate their family members.

After several hours, no detectives had arrived at Sunrise yet and we had GSW victims being discharged. These victims were leaving the hospital and some of them were going home to different states or countries. The decision was made that we needed to be proactive in documenting as many victims as we could. Obviously, our own Crime Scene Analysts were unavailable, so Sgt. Young requested several CSAs from Henderson PD to assist us. We began going through the hospital, the ER, and the ICU and making contact with the victims, or if they were incapacitated, their loved ones, in order to get consent to document their injuries. We spent several hours going to each room with a GSW patient, speaking with families, and

trying to provide what little comfort we could while still doing our jobs as police officers who needed to document a crime.

The following day, we returned to Sunrise to make contact with many of the patients and family members that were still there. Everyone seemed very grateful for our presence. There were several officers from California jurisdictions that were injured in the attack whose chains of command had flown in from California. They were extremely happy that we were at the hospital checking on their partners and making sure they were being taken care of.

T. Snodgrass #13701-NZ13

Security Involved:

Subject Involved:

On October 1st, 2017 at approximately 2214 hours, the SWAT/ CNT notification system was activated directing all personnel assigned to the teams to report to South Central Area Command (SCAC)-Command Post (CP). I was working as Nora Zebra 13 (NZ13) at the time of the incident. Upon the notification it was told multiple people were arriving at University Medical Center (UMC) to be treated for their wounds. I contacted the CNT Team Leader to advise I would be heading to UMC and begin debriefing witnesses of the incident for intelligence purposes.

I made contact with over 50 witnesses/ victims which were at the concert. Most people advised they did not see anything and only heard. Several people stated that they believed the suspect was shooting from a higher level from the Mandalay Bay Casino. The information was given to the CNT Team Leader to advise SWAT and responding Officers of updated intelligence from victims/ witnesses. I did not take any names of the people who I spoke with only gathered information on a quick basis due to the level of people which were coming into the hospital.

After completing debriefs with people at UMC I headed to the CP located at SCAC. After arriving at the CP I assisted other CNT members with gathering intelligence regarding the suspect, any additional suspects, and/or motives. During gathering this information I was notified that Bally's Casino had a subject in custody

that said he knew about information on the Active Shooter. The contact for Bailey's was security supervisor [REDACTED], myself and our psych [REDACTED] went to conduct and interview with the subject.

Upon Arrival at Bailey's Casino we were escorted to their room where that have people detained. We made contact with [REDACTED] stated he was in the area of Tropicana and heard shots being fired and over time people running inside of the casino. He made his way north on Las Vegas Blvd. [REDACTED] stated he believed there was multiple shooters. [REDACTED] was asked if he had direct knowledge of this or if it was only his opinion. [REDACTED] explained it was his opinion and said that's how he would do it, if it were him. [REDACTED] gave no accurate information of the incident and appeared to be mentally ill. This was confirmed by [REDACTED]

After completing the interview we went back to the CP. We conducted further intelligence on the suspect which was given. This continued through the morning until 066 hours. It appeared the incident went from gathering intelligence from the SWAT/ CNT side to investigative. I was relieved by my Team Leader due to going into A/B roster and having to go to my normal assignment which is Bolden Area Command Patrol Detective.

OCCURRED: _____

10-01-17

LOCATION OF
OCCURRENCE: _____

Route 91 Festival

NARRATIVE:

After the LVMPD communicator went off on Sunday night, 10-01-17, I dressed out and responded to the LVMPD CP from home. I made contact with Capt Seebock and asked where help was needed. He responded that we need a Captain at Sunrise Hospital. I immediately responded and took command and control at Sunrise.

Outside security:

Sunrise was already fairly secured via their security officers and only the emergency access was still open. I had 2 persons from NHP and 2 from Henderson, already on scene, in addition to several metro securing the hospital. Names/p#s were listed on major incident log.

Hospital Assessment:

Upon arrival I did an assessment inside and observed every chair/gurney/wheelchair filled with victims and GSWs. I noted close to 100 throughout the hospital.

I made telephone contact with [REDACTED] at the DOC to advise on status of victim numbers. [REDACTED] stated UMC had only received 17 patients. I then asked him to divert the ambulances to UMC if possible. I then advised the Sunrise ER chief doc who is also a metro SWAT medic [REDACTED] (was first name).

Victim names:

There was a new officer going around taking names of victims. I had him continue but also assigned an FTO officer (who was the senior metro present) to ensure a couple officers stay with the discharge nurses to document victim contact information as well as have them print out a list of those arrived and treated from 2230hrs on. I also advised officers to make sure to tell the victims that a homicide detective would be in contact with them. Discharges were occurring since the onset, prior to my request.

I received a call from Chief Jones inquiring if off-duty Officer Charleston Hartfield was there (possible 419). At the time there was 7 deceased in the parking garage, lower level and 4 more inside one of the hospital rooms. I went to each deceased and did not see Officer Hartfield; reported same to Chief Jones.

Event #: 171001-3519

Identification of deceased:

A few hours later Officer Parker inquired if Officer Hartfield was located. I checked with Chief Jones again and was advised no. Myself and Officer Garcia went to check the deceased again. The bodies were all now moved into adjacent rooms with an additional body that came from ICU. As we went to each, we located Officer Hartfield (unknown if he was the 419 that came down late, or if I missed him during my first check). We confirmed via pictures and clothing matches that it was him. I then notified Chief Jones and had one officer contact PEAP to notify his wife who was still at UMC with [REDACTED]

I then asked for Officer Hartfield to be placed in a separate area to wait arrival of PEAP and his wife. Metro Honor Guard also showed up to stand guard outside his room.

At this two more deceased were moved to this room.

The nursing staff was receiving descriptions and pictures of missing persons, inquiring if they were among our deceased. I had the officers go with the hospital staff and take information about the missing (whose reporting, who they are reporting missing, personal identifiers, descriptions, clothing and pictures).

I contacted the coroner, John Fudenberg, to determine an ETA for processing as families were contacting the hospital and several were in the waiting rooms awaiting word. The coroner stated it would be several hours and to do whatever I could to identify the victims we had. I advised the coroner we would be going thru their pockets and would place all property in plastic bags on each gurney of the deceased. I assigned a metro officer, with a hospital security to help with this and ensure the property was accounted for and secured. I believe we were only able to identify 3 from this.

Sgt Scott Phillips arrived with his detectives to collect further information from the victims and make a list of the deceased.

Myself and a few nursing staff, including Sunrise Hospital [REDACTED] began matching the information we were receiving to the deceased we had in the room.

TIPS volunteer, who is also a Deputy Coroner Jill Bernacki, arrived to assist with Officer Hartfield's remains. I asked her if she would also be able to help us positively id the victims based on the information we had gathered, ie (driver's licenses, photos from family). With the Dep Coroner's approval, as we identified them, the hospital [REDACTED] was setting up notifications for the families.

Two coroners arrived and processed Officer Hartfield. We escorted Officer Hartfield's remains to the assigned mortuary van. The van was there to pick up 4 deceased. I advised them to take him alone, with the motor officer escort and come back for the remaining victims as the coroners were still processing them.

Around 0600ish, I contacted Capt Seebeck to inquire about relief for my swing/grave units. I told him at this time we could probably go down to 5 officers. 1 to stay with the coroner, 2 to stay with the discharge nurses and 2 for outside security.

I left about 0830ish after Sgt Damon Young arrived and I updated him as to what the status was. The information gathered from the swing/graveyard units was passed to Sgt Young and he was to ensure it was received at the DOC. Sgt Young notified me later that they were able to identify all deceased at the hospital for the families waiting word.

The staff at Sunrise was unbelievably proficient and professional and deserve major credit on handling such a dynamic situation. Their calmness was key to handling the influx of patients.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT

DATE & TIME
OCCURRED:

10/01/17 @ 2208

LOCATION OF
OCCURRENCE:

3950 S Las Vegas Blvd

NARRATIVE:

On 10/01/17 I Officer A. Colucci P#13379 was assigned to CC12 as an FTO and was in briefing at 2200 hours. At 2208 hours our Sgt. Greg Everett, told our squad that there were reports of shots fired over the radio. My trainee, Officer S. Sanchez, and I ran out to the parking garage to get into our vehicle and head towards the scene. When we got to where our vehicle is usually parked, we found that it was missing. Officer Arrendale was parked nearby and he told me to jump into his vehicle along with Officer E. Clatterbuck, and all four of us began heading out of the station as a four man unit, 7M24. I drove the patrol vehicle code 3 towards the scene, and as I did I heard updates that there was an active shooter at the event and that he was possibly on the 32nd floor of Mandalay Bay Hotel shooting into the venue. I made the decision that since we were en-route as a four man element that we would head directly to Mandalay Bay and go up to the 32nd floor to end the threat.

Once we arrived at Mandalay Bay I took the patrol shotgun from the vehicle and Officer Clatterbuck grabbed his rifle from the trunk. We made entry into the hotel as a four man element and contacted security in the center of the casino. Once out with security we headed to the elevator banks of the hotel, but just before we were about to go up to the 32nd floor, the security officer told us that there was a report of a second shooter on the 29th floor. Knowing that there were already some officer's en-route to the 32nd floor, we made the decision to go to floor 29 instead, fully expecting to encounter a shooter on the 29th floor.

Once at the 29th floor we found it was quiet and did not hear any shots being fired. We announced our location to dispatch and began to slowly move our way through the hallway and begin to clear the floor to make sure there was no shooter. While making our way down the hallway of the south wing Officer S. Sanchez, who was our rear guard, yelled "threat". All of us immediately turned to see a white male wearing tactical gear raising a rifle that had a green laser sight affixed to the end. The laser sight was climbing the carpet and began rising in our direction, indicating the subject was raising the rifle up in a firing position. Someone, I'm not sure who, yelled "POLICE", and I realized that the subjects were plain clothes police officers. We lowered our weapons on each other and communicated to them that we were already clearing floor 29, and they stated they would go up one floor to clear floor 30. A blue on blue shooting was narrowly avoided. This occurs at approximately 24:30s into my first body cam video for the incident. We continued clearing floor 29, and made entry into room 29-135, 3 floors below the shooter, because security had received a call from that room stating there was an active shooter on floor 29. When we made entry into the room, the PR was gone and we could not garner an intel from him. We moved on from that room and secured the rest of floor 29. We eventually stopped in the

SUBJECT

DIVISION REPORTING:	<u>Patrol EA33</u>	DIVISION OF OCCURRENCE:	<u>Patrol</u>
DATE & TIME OCCURRED:	<u>10/01/17 2208</u>	LOCATION OF OCCURRENCE:	<u>Mandalay Bay 3950 S Las Vegas Blvd</u>

NARRATIVE:

On 10/01/17, I Officer J. Von Goldberg P# 13390, whom was working as marked patrol unit 3041, for Enterprise Area Command, was checked out on 82 with Officer K. Donegan P# 15121, whom was working as marked patrol unit 355. While on 82 the dispatch notified the area command of the active shooter at Mandalay Bay. Sgt S. Skenadore P# 13341, ordered all units with rifles to respond to Mandalay Bay, which Officer Donegan is a rifle operator and I am not.

I immediately went over the radio and stated "I'm just on 82, I don't have a rifle, but I have combat life-saving training" and then asked if he wanted me to respond as well, as I was not part of the "in the box squad". SGT Skenadore ordered me not to respond to Mandalay Bay, but instead block eastbound traffic on Tropicana to prevent traffic from reaching Las Vegas BLVD. I was the first officer and only officer for a while, to block eastbound traffic on Tropicana.

During the event I was trying to organize the assistance of NHP and EAC to block the exits from the 15 and Dean Martin at Tropicana to create an avenue of safe passage and not create gridlock on Tropicana, as it was close to the dynamic and developing scene. I also assisted with directing fleeing patrons towards the safe zone while simultaneously gathering real Intel on the second active shooter that was generated from the New York New York, as I was one of two officers that were near the casino. When that call was generated, there were updates given that the shooter was running across the bridge from New York New York to the Excalibur and I was still just us two officers arrived at the area to clear the bridge.

After my partner (unknown name) and I deemed it was safe, he was relieved to help with the Witness List and I continued to block eastbound traffic on Tropicana and become an initial guard post to check the credentials of surgeons and doctors that were being called in to assist victims of the massacre and to act as a protective measure for any VBIED's that may have been targeting LVMPD's main force.

OCCURRENCE:CCACDATE & TIME
OCCURRED:10/01/17 2200LOCATION OF
OCCURRENCE:MGM Festival Grounds

NARRATIVE:

On 10-1-17 at approximately 2200 hours, I, Officer A. Saleem P#13393 and Officer C. Cooney P#13581 and were operating as marked patrol unit 629A. I was driving the patrol vehicle and had parked in the southeast parking lot of the Tropicana hotel while Officer Cooney and I were performing administrative Field Training tasks.

Minutes later, we heard the first radio broadcast from the Special Events unit announcing that there were shots fired at the Route 91 festival. I immediately activated my body worn camera and began to drive southbound through the parking lot towards East Reno Avenue. Steady automatic gunfire could be heard as we responded Code 3 down Reno and onto Giles St. Officer Saleem announced our arrival on the radio within seconds of the initial broadcast. We heard the radio traffic that there was an active shooter inside the festival and I parked the squad car on Giles. As Officer Saleem and I exited our vehicle, we observed the initial crowds of people exiting the festival. Officer Cooney was armed with a shotgun and I drew my handgun and we ran towards the first open gate on the northeast corner of the festival.

Automatic gunfire continued as we ran down Giles Street and I yelled for the crowds to run to safety. I posted myself at the open gate with Officer Cooney and tried to assess the layout of the festival. A passerby told me, "Southwest corner, southwest corner." Officer Cooney and I were joined at the gate entrance by Officer Lefler and his Officer-in-training Peterson. We now had a 4-man STRIKE team formed and I noticed that Officer Lefler was armed with an AR15 so I advised him to take the point position. I told the team that the threat was coming from the southwest corner and we moved into the festival as an element.

As we moved, our team was continuously yelling to the fleeing crowds to run out to the street to safety. There was mass confusion and panic in the crowds. Officer Lefler and I tried to seek the best cover we could as we were in a concession area. We moved west as a team element across the concession lane and proceeded south towards the open audience area of the concert. As we neared the end of the row of concession areas, a long burst of automatic gunfire was heard. Officer Lefler and I observed that the rounds were impacting on the ground directly ahead of us and the audible crack of the impacts was drawing closer to our position. I yelled out to the team that the gunfire was getting closer and Officer Lefler yelled out for the team to move back.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: LLV171001003519

The team drew back to the end of a nearby food concession trailer and took the best cover we could find. Officers immediately moved to the west part of the trailer in an attempt to observe the shooter's position. To our west I observed fleeing crowds across a large and poorly-lit open area. I scanned the area to the southwest while gunfire was heard. While I heard rounds impact near our position, I could observe no muzzle flashes to return fire. A flood of civilians poured past our position in a desperate attempt to escape the gunfire. Many were telling us of relatives that were shot and down while others in a shocked state of disbelief at what was occurring. Our team advised everyone to run out of the festival as fast as they could.

Automatic gunfire continued and the sound of impacts again grew closer to our position. I advised the team that rounds were impacting near us and I swapped positions with Officer Lefler so that he could potentially return more accurate fire with an AR15 across the large open ground than I could with my shotgun.

Our team formed a tactical "L" at the concession stand with me and Officer Saleem covering the south and Officers Lefler and Peterson covering the west. Civilians huddled around our position for safety. Knowing that we really just had concealment and not solid cover, our team yelled at everyone to keep running until they were out of the festival. The only thing our team knew for certain was that we were receiving heavy incoming fire from the southwest. The shooter was definitely trying to fire into the crowds that were fleeing towards the east and northeast gates.

I asked many fleeing people what they saw in an attempt to gain a suspect description or location. The answers I received were that there were at least three shooters inside the festival itself, that the shooting was coming from the Mandalay Bay or Delano, or that the shooting was coming from the outer fence to the west of our position.

I observed several civilians providing aid to others by carrying the wounded out on wheelbarrows or makeshift stretchers. Some civilians disregarded our warnings to leave and instead ran back into check on a missing or injured loved one. Despite the carnage all around us, some people did not seem to understand the danger they were in. I even observed two men in the crowd get into fist fight for unknown reasons. One of the men was punched unconscious by the other and two other men dragged the man to safety.

Once the gunfire subsided after minutes of barrages, our team was able to move up to the end of the concession area and the beginning of the open field of the audience area. We still could not observe any suspect movement. What laid before us was an open, dark field scattered with the injured, deceased, and those remaining to render aid. We continued to try to gain intelligence about suspect description or position but there were still no clear answers to be had. Two more Officers armed with rifles joined our team and the fluorescent lights of the concession stand we were huddled behind were broken so our location would not be revealed to the shooter. The entire duration of our actions were based on the assumption that there could be multiple armed assailants inside the venue. We proceeded to conduct MACTAC operations based on this.

Officer Lefler and I were still on point and formulated a plan to cross the open field using bounding overwatch. The only nearby cover was a bar located in the center of the field. Beyond the bar was several dark trailers that posed an unknown threat. Officer Lefler covered the trailers with his rifle and I informed the rest of the team what the plan was: that I would run to the center bar with one other Officer in bounding overwatch. Officer Saleem volunteered to go with me and we both ran to the center bar and cleared it for the rest of the team to move up.

The team proceed to move up and clear the center trailers that led to the main stage area of the concert. Our team was joined by several other Officers at that point whose names are unknown to me. While clearing the

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: LLV171001003519

main stage area, we observed dead bodies and more wounded. We continued to warn the lingering civilians that there was still a present threat due to the suspect not being confirmed located or down.

Our team cleared all of the main stage, trailers behind the stage, and the backstage VIP area as we moved to the southwest corner of the festival grounds near Mandalay Bay road and Las Vegas Blvd South. As we cleared each area, I took notice that there were no shell casings on the ground of the areas we checked inside the festival. Along the far western wall, we discovered three Officers that had been pinned down. One of the Officers on our team that was armed with a rifle remained with those Officers as the rest of us evacuated a civilian who had been pinned down there.

We brought the civilians back to the area we had just cleared, which was where the performers' tour buses were located. We rendezvoused with Lieutenant Spencer and other Officers there. The information coming over the radio was of active shooters at resorts all over Las Vegas Blvd South. Concerned that the attack on the concert was the first of a broad-scale attack, Lieutenant Spencer ordered us to shelter in place with the remaining civilians to lay on the ground inside the tour buses while Officers formed a protective perimeter around the buses, some of which had bullet impacts.

Lieutenant Spencer took special care to check on each Officer on the perimeter and he ensured that we had water and were able to tell our loved ones we were okay. He also asked me if I had any suggestions to improve the plan but I told him that I agreed that this was the best plan with the information we had.

It was not until the lull in the action as I was on my perimeter spot in the southwest corner of the venue that another Officer told me that the news was reporting that there was a hole in the windows of the Mandalay Bay. Even then, I needed assistance to spot the hole in the window due to the darkness of night.

Officer Frederick arranged for a passenger van to evacuate the remaining civilians and take them to the church at Reno and Giles where the Mobile Command Vehicle had been set up. Within two van loads, all of the civilians were evacuated from the backstage area. Officer Saleem and I were at the Mobile Command Vehicle and Sergeant Bulmer instructed us to take [REDACTED], his bodyguard, and his pregnant wife to the airport. While enroute to the [REDACTED] told us his experience of the shooting from his perspective. [REDACTED] said that he was on stage playing when he heard the first few pops. He said he was confused like everyone was and looked around but didn't see anything out of the ordinary. The next large barrage of fire he said was so loud to him that it sounded as if someone was right next to the stage firing shots. At that same time, [REDACTED] told us that he could see people in the audience dropping to the ground "in waves". Someone backstage yelled out to [REDACTED] that it was gunfire and for him to get down. That's when he ran off the stage and went to protect his pregnant wife. [REDACTED] was inside the tour bus that I protected on our perimeter until he was evacuated.

Once Officer Cooney and I returned to the church and the MCV, we were assigned by Sergeant Bulmer to watch one of the gates on the east side of the festival until we were relieved.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT

Mandalay Bay Shooting Response
SUBJECT

DIVISION REPORTING: Community Policing Division

DIVISION OF OCCURRENCE: Tourist Safety Division

DATE & TIME OCCURRED: 10-01-2017 2200 hours

LOCATION OF OCCURRENCE: Mandalay Bay

NARRATIVE:

FYI

On 10-1-17 at approximately 2208 hrs I received intel that an active shooter was at the Mandalay Bay at the Route 91 festival. I reside in close proximity to that location. I put on a LVMPD uniform and responded to the event. I arrived in the earlier stages of the incident and considered myself on-duty. We established a team on the south side of the casino and entered as a strike team through the convention center doors. The only intel I had knowledge of was that the shooter was at an elevated position and inside of the Mandalay Bay. As a team we moved through the casino floor while listening for gunfire and making decisions on where response was needed. We made it to the casino elevator bank and met with other officers to include K-9 and some SWAT personnel. With the officers in that area teams were deployed up to the Mandalay Bay tower. We established an element and took the stairwell to start working systematically from the ground up. We responded to floor 2 through a stairwell and began looking for shooters. Our element was in contact with a SWAT Sgt who was at the top. Our element continued clearing and moving up the tower when a zebra unit put out on the radio that the suspect was down. We continued and after a certain point no reports of active fire were coming in anymore, no shots were heard, and no intel of more shooters was put out. We were instructed that SWAT was going to take control of the tower, head down and pass any intel when our team hit a stopping point.

There was 5 of us in this element to include one K-9. 3 Officers were K-9 units, one patrol officer, and me. After responding down the team dispersed to become part of other entities and were given other missions. I joined Sgt David Walker's strike team and continued through the night assigned with him.

I would like now to make it noted that this element was successful because of the veteran K-9 officers I was with. Thank you to them for being the true leaders. I have never seen such calm and focused demeanor in the midst of the biggest challenge anyone has ever seen. To the patrol officer that was with us thank you, you came with a warrior mentality and performed amazing. The officers that arrived and were part of the initial entry I can't thank you enough. They say we run into battle in moments like this and you are true examples of that. I may not know for some time who you all were but I will find you and make sure I get to thank you personally.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
OFFICER'S REPORT

Event #: LLV171001003519

Route 91 Shooting

SUBJECT

DIVISION REPORTING: Investigative Services Division

DIVISION OF OCCURRENCE: Investigative Services Division

DATE & TIME OCCURRED: October 1st, 2017 at 2200 hours

LOCATION OF OCCURRENCE: Route 91 Harvest Music Festival

NARRATIVE:

On October 1st, 2017 I, Officer R. Rotta P#13422 and Officer C. Sims P#15054, were operating as 183SE, special event overtime officers assigned to the interior of Route 91 Harvest Music Festival. Our shift began at 1700 hours and we were assigned to the 'Rear Grass/Lawn Chair' area within the festival grounds. For the majority of our shift, we were standing in front of the rear grass/lawn chair area and behind the majority of the main stage crowd.

At approximately 2200 hours, event personnel advised me of an intoxicated subject who was causing an issue at one of the bars. The event staff led us through the crowd (south) to a make-shift bar at the north end of a row of vendors that split the main stage crowd in half, east and west. At this bar area we encountered the subject and due to the crowd and noise levels I removed him from the crowd and to the House of Blues barrel bar entrance on the east side of the crowd. Once at the entrance to the barrel bar area, I requested security over the air to meet us and have this subject removed from the property. He provided his identification from his wallet at this time, which I placed inside the front of my waistband. Officer Sims was still with me and two other officers joined us.

It was at this time that I heard the first noises which I believed to be fireworks. I was facing north and heard the noise coming from a southwest direction. I believed the sounds to be fireworks due to them sounding from a distance and not loud enough to be the sound of gunshots like I am familiar with hearing. This first volley was extremely rapid and similar to the quickness how multiple firecrackers would sound. I observed several people begin running or quickly moving in a northeast direction past where we were standing. Upon turning around, another volley of the same sounds could be heard coming from a similar southwest direction. This caused much more of a reaction from the crowd and more people began running in a northeast direction.

I now believed there may have been an active shooter within the crowd or off of Las Vegas Boulevard and began moving in a southwest direction through the crowd. Multiple people were screaming and yelling that someone was shooting and/or that someone was shot. I continued scanning the crowd and moving in a southwest direction to look for a suspect. Gunshots continued in long volleys and appeared much louder. Officer Sims and I had become split up for a brief period. I located him and moved to his location. It was then that he advised me the shooting was coming from up in a window on the Mandalay Bay. I told him I needed to get my rifle from my patrol car which was parked in the church parking lot on the east side of Giles. I

Event #: LLV171001003519

proceeded to turn and move toward the east gates when an unknown Asian or Hispanic female grabbed my shoulder. She was holding her mouth with the other hand and I observed a large amount of blood on her face/mouth. She told me she had been shot. I grabbed her arm and told her to come with me to medical which I knew was located at the gates I was headed to. She was followed by a male wearing a neon green/blue Seahawks jersey. I continued toward the gates and reached the exterior of gate 4a where medical was on the other side. I told her to sit down and stay here and medical help would come.

Our overtime radio channel was working off of Event 5 and radio traffic had been broadcast that officers needed to switch to CCAC channel. It was at this time that I switched my radio and moved across the street to the church parking lot where my patrol car was located. Once there I retrieved my plate carrier, rifle, and drop leg mag pouch. I then moved back across the street towards gate 4a. In the middle of the street between gate 4a and the church lot entrance was a patrol car. Numerous people had taken cover behind this patrol car. I noticed an officer in the crowd of people attempting to render first aid to someone that was injured. I then took a position at the right rear quarter panel and provided cover.

While here, [REDACTED] approached me and stated that the medical tent needed some sort of protection while they worked on the injured. I recognized [REDACTED] as staff from the [REDACTED]. I then moved to the entrance of the medical tent just inside gate 4a. I remained at the front door to provide cover while medical staff and others tended to injured people. Multiple other injured people either arrived on their own and went in or were brought in by others. I attempted to refuse entry to anyone who was not actually injured. I did permit uninjured people to enter who advised they were off duty medical personnel of some sort and able to assist in the efforts. People were continuing to exit through gate 4a from inside the festival. I then noticed a concrete 2 story tower across from the medical tent to the south. I communicated with Officer B. Rich P#14300 that I was going to move to the tower and try to get inside for a better look at the festival and to continue to cover the medical tent. I then proceeded up the stairs and was able to enter the doorway at the top. I opened the windows on the south and west side of the tower and looked out over the festival area. I no longer heard shooting and never saw a location it was coming from. I stayed in this location for several more minute until [REDACTED] motioned up to me that there was a 444, Officer Down that was shot in the neck inside the festival.

I moved down from the tower and saw an unknown officer with a tac-vest and helmet on. I told him to come with me for to get an officer down inside. [REDACTED] remained with us and we moved in a southwest direction through the interior. We came to another team of officers already inside. They advised that officer had already been attended to and was no longer inside. We then began bounding from this location (I believe a coca cola vendor booth) to the bar area where I encountered the intoxicated subject previously mentioned prior to the shooting. Most of the interior lights were off, but this bar area had lights strung on a pole that remained on. Several officers and I began breaking the light bulbs to provide us with darkness as concealment. We moved along the east side of this vendor area that divided the main stage crowd area. We moved south, toward the stage. We encountered several people hiding amongst some of the audio equipment and sent everyone out to the east. The main audio/sound booth area directly north of the stage and dividing catwalk was cleared. We then moved down the middle walkway toward the stage. Officer J. Lefler P#14745 and I remained in this location with our rifles trained in a southwest direction while other officer with us moved to the east and around the stage to clear out anyone else injured or hiding. While here, I noticed several strike teams moving throughout the west side of the main stage grass area checking for a pulse from bodies lying on the ground.

Our team eventually moved to the west side of the stage and found another group of officers at the tour busses. We were advised that approximately 40 people were sheltered in place on the tour busses. Sgt. Bulmer stated we were going to hold this area until given further direction. Several officers took positions of cover watching different avenues of approach. Officer Sims and I, along with two civilians (one stated they

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: LLV171001003519

were an EMT and the other stated he was off-duty police from California, both unarmed), moved to a portable building to the south. From this portable's doorway, I was able to see in an east direction toward gate 7 and remained here covering gate 7. A force protection team eventually came and went. A plan was then developed by the officers at the tour busses to use a white multi-passenger van and shuttle the people inside the tour busses out of the venue and to the CP in the church parking lot. Multiple trips took place and all of the people who were in the tour busses were brought out in the van and dropped off at the CP. We then exited the area through gate 7 and walked north to the church CP.

Lieutenant Yatomi arrived at the church CP area and began accounting for overtime officers. Officer Rich, Officers Sims, and I assisted in the CP with calling the overtime officers to find out their current locations and status. I remained here until given direction to secure at approximately 0500 hours. On October 4th, 2017 I completed an occupational injury/illness/exposure report due to having blood splatter on the right side of my face/cheek area.

DATE & TIME
OCCURRED: 10/01/2017 2205 Hours

LOCATION OF
OCCURRENCE: 3950 South Las Vegas Boulevard Las Vegas, Clark County, NV

NARRATIVE:

At 2214 hours, the SWAT/CNT notification system was activated directing all personnel assigned to the teams to report to SCAC - Command Post. My assignment that night was the Intelligence Coordinator position of the Crisis Negotiation Team. Upon arrival at the SCAC, I was assigned by Sergeant Bates to coordinate all Crisis Negotiation Team personnel to work towards gathering intelligence regarding the suspect, any additional suspects, and/or motives. After the intelligence was collected it was vetted and pushed forward to the SWAT Command Post. This was my mission for the duration of the incident.

At the conclusion of the Crisis Negotiations Teams involvement at 0800 hours, Detective Cordero and I completed the Crisis Negotiation Team Intelligence Report. The report was sent to Sergeant Bates approval and I secured to report for A/B Roster that night.

For any additional information reference intelligence gathered, please see the Crisis Negotiation Team Intelligence Report.

DATE & TIME OCCURRED: 10/01/17 @ 2209 HRS

LOCATION OF OCCURRENCE: Las Vegas Village, 3901 S. LV BLVD, LV, NV 89119

NARRATIVE:

On 10/01/17 at approximately 2215 HRS, I, Det. J. Guzman P#13456 received a text message from Robbery Det. J. Hanshew P# 9664 stating that there was an active shooter at the Route 91 Harvest Fest. Det. Hanshew's text message further stated that the radio traffic indicated there were several people down. Simultaneously, I received a telephone call from Officer E. Vega from the Henderson Police Department to ask me if I knew that there were reports of an active shooter on the Las Vegas Strip. I ran to grab my portable radio and turned it on to the CCAC channel. After listening to the radio traffic for a few seconds, I knew I had to respond and assist. I sent out a group text message to my squad informing them of the incident and put on a police uniform before running out of my residence. I continued listening to the radio traffic as I headed towards the festival and heard that a command post had been established at SCAC.

I drove to SCAC and met with other members of my squad who had also self-dispatched to the incident. We were told to form strike team #47 and head to the Paris Hotel and Casino, 3655 S. LV BLVD, LV, NV 89109, where it was believed that shots were also being fired. We cleared and evacuated the casino floor and waited for further instructions. Our team was later advised to provide security in front of the Bally's Hotel and Casino, 3645 S. LV BLVD, LV, NV 89109.

DIVISION OF
OCCURRENCE: CCAC / DTAC

DATE & TIME
OCCURRED: 10/01/2017 @ 2213 Hours

LOCATION OF
OCCURRENCE: Route 91 Harvest Festival

NARRATIVE:

On October 1st, 2107 at approximately 2213 hours, Officer A. Hawkins P# 13505 and I, Officer T. Fasulo Jr. P# 13459 were operating as marked patrol unit 9A3 when an Active Shooter event was broadcasted via LVMPD Dispatch. Details stated there was an active shooter at the Route 91 Harvest Festival with multiple casualties.

During the first few moments the event was unfolding in Convention Center Area Command, MACTAC protocols were initiated in Downtown Area Command by the field supervisors. Due to Downtown Area Command being within the Tourist Safety Division, officers did not leave the area command and instead took positions along Fremont St Experience and the Stratosphere Hotel/ Casino in order to protect the citizens if another attack were to happen.

Officer Hawkins and I were initially at the Clark County Detention Center when the Route 91 Harvest Festival was attacked. Officer Hawkins and I immediately switched our handheld radios to the CCAC channel and began to listen to the updates provided by LVMPD Dispatch and officers already on scene. An officer broadcasted he was transporting another officer suffering from a gunshot wound to UMC trauma. Being close to UMC, Officer Hawkins and I made the decision to respond to UMC and assist in road closures in order to facilitate a clear and direct path for the injured officer.

After the injured officer arrived at UMC, Officer Hawkins and I made contact with Sgt. D. Mason P# 8055. Sgt. Mason provided orders to respond to the Fremont St Experience and provide protection along with visual presence in the event another attack were to occur. Due to Officer Hawkins being certified to carry a rifle, we immediately responded to Main St and Fremont St and took a position at the top of the Slotzilla Zip Line. Officer Hawkins and I operated as a two man element, him being the rifle carrier and I being the observer. Officer Hawkins and I scanned the Fremont St Experience with our field of view being from Main St to approximately Casino Center. At approximately 0730 hours on October 2nd, 2017, Officer Hawkins and I were relieved of our position by Downtown Area Command day shift officers.

OCCURRENCE:Mandalay Bay CasinoNARRATIVE:

On 10/01/17 at approximately 2205 hours, I, Officer D. Saggiomo (813A) was supervising a graveyard patrol squad (SV11) when we were activated for a MACTAC incident. The following officers from my squad responded to the designated rally point, briefed the incident, and formed a strike team to head towards Mandalay Bay casino.

Officer Agae, Marilyn P# 15900

Officer Allen, Christopher P# 16000

Officer Serrano, Ericka P# 15845

Officer Slattery, Kenden P# 15909

Officer Sonetti, Keith P# 15905

Upon arrival at the incident, we were initially tasked as Strike Team #11 and responded to Excalibur to the reports of an active shooter and shots fired inside the casino. We were the first team to enter Excalibur and quickly realized that there was not a shooting there. After clearing the casino floor, we were informed of a victim with a gunshot wound to the leg that was on the casino floor. We evaluated her injury and informed medical of her location to receive aid.

After the Excalibur, my team was redirected to respond to Hooters casino and form a Force Protection team with the fire department. Our mission was to clear several hotel floors and look for victims of the shooting that occurred at Route 91 concert.

Upon completion of this mission, my team was tasked with meeting the fire department at Mandalay Bay to form several Force Protection teams and begin to clear some of the 43 floors at the hotel. My team showed great resilience as they wore heavy riot gear and cleared hundreds of hotel rooms on numerous floors. My team was searching for any victims, suspects, or accomplices to the shooting as information at that time was unreliable and ever-changing.

I hereby commend these officers for their heroic actions during such a tragic event.

Route 91 Festival Active Shooter Response

SUBJECT

DIVISION REPORTING: <u>BAC</u>	DIVISION OF OCCURRENCE: <u>CCAC</u>
DATE & TIME OCCURRED: <u>10/01/17 2208 hours</u>	LOCATION OF OCCURRENCE: <u>Mandalay Bay 3950 S. Las Vegas Blvd</u>

NARRATIVE:

On 10/01/17, at approximately 2208 hours, an active shooter incident occurred at the location of 3950 S. Las Vegas Blvd. I Sergeant J. Stark, P#13515, supervisor of BA14, was conducting graveyard briefing at Bolden Area Command (BAC). My squad, BA14, was designated "In the Box" on the night of the incident. At approximately 2215 hours, a swing shift unit opened the briefing room door and advised L.T. Hank of what was unfolding at the Mandalay Bay/Route 91 Festival. I pulled up the CAD and everyone in briefing turned on their radios. We quickly determined to end briefing and respond as quickly as possible. As all my units were at BAC, there was no need to meet at the BAC MACTAC rally point. I ordered my squad to double up, meet in front of BAC and don their tactical gear. The BA14 strike team consisted of the following units:

BA14 – Strike Team 2

Sergeant J. Stark, P#13515, (B11)

Officer D. Spivey, P#15328 (1W1)

Officer M. Smith, P#15315 (1W11)

Officer R. Farris, P#15463 (1W12)

Officer D. Ottomanelli, P#15841 (1W21)

Officer J. Mercado, P#15902 (1W22)

Officer A. Javier, P#15910 (1W8)

Officer J. Bryant, P#15876 (1W18)

Officer R. Wicks, P#15400 (1W77 assigned to BA11 but reassigned to my squad for the night due to being a rifle carrier)

Response

I sent dispatch BAC dispatch an administrative message to update all call signs to 811a-811g, but due to the chaos on the radio and department wide, the call signs were never updated and it appeared dispatch utilized the line-up to log and monitor all the units.

L.T. Hank briefed us quickly with what he knew in front of BAC. Our task was to get to SCAC which was the CP for the incident. All units donned their tactical gear and doubled up. Officer Farris was my driver. We responded code 3 and caravanned to SCAC. We arrived at the CP at approximately 2240 hours.

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: 171001-3519

Command Post

The front parking lot of SCAC was filled with marked patrol units, plain cars and other jurisdiction units. To alleviate ingress and egress BA14 parked on the first street south of the parking lot in single file. The CP was filled with units with command and control just starting to form. L.T. Hank assumed the role of Staging Area Manager and began to appoint strike teams. We were the second strike team to form and were appointed Strike Team 2 (ST2).

At approximately 2250 hours, calls began to come into dispatch regarding shooters at multiple hotel/casinos. These calls included a possible 445 device in a Black Audi SUV in front of the Luxor Hotel and Casino. Due to the amount shooting calls coming in from multiple locations it was believed there were multiple suspects and this was a takeover style terroristic attack similar to the attacks in Mumbai. L.T. Hank ordered each strike team to respond to a location of a call. ST2 was given the task of addressing the 445 device in the 425b under the Sphinx in the Luxor valet.

Luxor 445 Device

I created a plan, showed my strike team a map and gave them assignments. ST2 quickly responded to the Luxor and located the possible device. We created a perimeter around the device and coordinated with Luxor security to ensure the casino floor was evacuated at the hotel was on lock down. I utilized my binoculars to inspect the possible device. The newer model black Audi SUV had a NV plate officers did not recognize. On the back of the SUV were wires connecting a large PVC pipe and several unknown square objects which were taped to the tailgate. The vehicle and the device protruding from it were extremely suspicious and with the details of the ongoing incident it was likely either an actual device or a decoy. The perimeter was moved back to approximately 80 yards.

While on scene, ST2 maintained 360 degrees of lethal coverage while in front of the Luxor. Individuals who were hiding, lost, or intoxicated would wonder up through the parking lot and ST2 utilized Luxor security to get them into the Luxor lockdown areas. The perimeter could not be moved back farther due to the amount of people coming from different direction. Eyesight between officers needed to be maintained. I told Luxor security to review their video surveillance for more information on the vehicle. I was able to gain intelligence on the four individuals who dropped off the SUV and went running through the Luxor. I broadcast their descriptions and where they were last seen over the radio. ARMOR was requested and responded.

A plain clothes Gang Unit officer and a uniformed CCAC patrol officer were in the Luxor parking lot and I assigned them to ST2. I did not make note of their names to document them in this report. They assisted in maintaining the perimeter and stayed with ST2 throughout the night. ST2 maintained the perimeter on the device for several hours before ARMOR arrived.

ARMOR and CCFD Bomb Squad responded and I briefed the ARMOR Captain and Lieutenant on the limited information we had. ARMOR Detectives determined the device was suspicious and the robot was sent up to inspect it. It was ultimately determined to be some sort of testing device for a self-driving car.

After the device was deemed safe, ST2 became the Luxor Security Strike Team. Several more hours past and once the IC determined the Luxor could be taken off lock down, ST2 moved to the southern perimeter and maintained security on Mandalay Bay Dr preventing anyone from the Luxor parking lot from entering the

LAS VEGAS METROPOLITAN POLICE DEPARTMENT
CONTINUATION

Event #: 171001-3519

Mandalay Bay property. At around 0715 hours, ST2 was relieved by dayshift, responded to the CP, checked out and made our way back to BAC.

Summary

Throughout the incident ST2 maintained their composure during the most chaotic incident the LVMPD has ever faced. They displayed bravery and courage in their response to the 445 device, which due to the intelligence present seemed very legitimate. ST2 placed themselves in line of fire and in proximity of a 445 device to protect thousands of innocent citizens inside the Luxor. At the time, we did not realize it, but we were in the line of fire of the suspect's room on the 32nd floor of the Mandalay Bay. ST2 worked seamlessly with Luxor Security to gain intelligence and protect citizens as they appeared. ST2 stayed vigilant throughout the night for any and all threats. ST2 displayed compassion for the victim's and the victim's families as they approached and requested the assistance they needed and gave them the information they needed to get victim services. Of special note was assisting and off duty California Police Officer and the wife of one of the off duty California Police Officers who was murdered that night.

I am proud of every officer who responded that night and I am especially proud of my squad.

DIVISION
REPORTING:TRAFFIC TR32DIVISION OF
OCCURRENCE:PATROLDATE & TIME
OCCURRED:10/01/17 22:08LOCATION OF
OCCURRENCE:3950 S. LAS VEGAS BLVDNARRATIVE:

On 10/01/17 at approximately 22:08 hours, I was clear in Northeast area when I heard dispatch advise of a code red on Convention Center for the 415A/ Active Shooter. I pulled up the event on CAD and also switched to the radio channel for Convention Center. When I heard the radio traffic and heard the gun shots over the air, I switch my radio back to Northeast channel and self-assigned to the event and notified the channel that it was a confirmed active shooter and to have their area officers get ready. I proceeded to roll code 3 from the area of Bonanza and Pecos. As I neared the scene, I heard people on the radio stating they needed Russell eastbound from I-15 closed down due to traffic flowing into the scene and for other emergency personnel to have a clear route (i.e. medical personnel/ other police personnel.) When I heard this, I had just exited onto Russell. Wanting to assist on the scene, I knew Russell had to be cleared out so other emergency medical personnel had a clear path. With the assistance of another officer and a UNLV Sergeant we started to divert traffic off of Russell. Once NHP was able to close off the access ramps that fed traffic to Russell, I left that area and started towards the scene to give medical assistance. It was at this time, dispatch advised of several other active shooters in the area. I knew all Officers coming to the scene were going to the Command post to get assignments. I took it upon myself and proceed to the New York New York Casino. This is due to the amount of generated callers and the threat sounded confirmed. I flew over to Tropicana, where I and another Officer cleared the exterior parking lots of New York New York. Once it was code 4 there, we cleared the parking lot of the Excalibur and forced all people lurking in the area west. We stationed ourselves there for a bit, until it was semi-confirmed there was only a single shooter. I left from here and met up with a couple other traffic officers on Las Vegas Blvd/ Russell. From there we proceeded to the Command Post for other assignments. We stayed at CP for a bit to direct where traffic officers were needed. The remainder of the shift was spent at Tropicana/ Koval for traffic control.

NARRATIVE:

Sergeant Kennedy, Detective's Ghilarducci, Sulek, Vallad, and I were heading to the music festival to conduct a walk through when overtime units called out shots fired. We all arrived at Reno and Giles within minutes. All of the officers put on TAC vests and we formed a strike team. Information about where the shooter was, and the number of shooters, was unclear. Festival goers told us there was a shooter inside of the fair grounds. We began to advance as a unit to the throat as shots were still being fired. As we were approaching the grounds we learned there was a shooter in the Mandalay Bay with a position of advantage. We quickly transitioned to downed citizen rescue and began evacuating people to the Tropicana and the Hooters hotels. We set up security so the path was clear and we saw people down, with severe injuries, who were unable to move themselves out of harm's way. We loaded some individuals into the PD truck and Sergeant Kennedy and Bill drove them to a local hospital.

Detective Vallad and I stayed on scene and began evacuating families that were hiding behind vehicles out of the area. Then an active shooter call came out at Tropicana. Detective Vallad and I went to the Tropicana with medical personnel. We were systematically clearing the areas that concert goers were seeking refuge. Once we determined no additional shooting took place medical was able to tend to the several injured from gunfire and a female that was trampled.

We then left that area and helped set up the North Division, North Branch with FD. Detective Vallad continued to join strike teams and Force Pro teams in an attempt to limit casualties and he cleared a lot of areas.

The actions taken that night were heroic to say the least. The people Sergeant Kennedy drove to the hospital survived due to quick thinking and the ability to problem solve. Everybody on scene showed tremendous courage and with out their assistance there would have been more fatalities.

NARRATIVE:

FYI

On 10-01-17 at 2230 hours I logged on as marked motor unit T188 to the NWAC channel. As I logged on for service the active shooter event near Mandalay Bay had been active for approximately 20 minutes. Due to the timing of my shift start and the events that had taken place multiple motor units from TR11 rallied at the NWAC to receive further instruction as to our deployment to assist with the incident.

Ultimately we were directed to meet as a squad at the Traffic Bureau and stand-by for further direction. While at the Traffic Bureau I was assigned to an auto collision to take a report for parties involved. Upon completion of the report I was assigned to assist with traffic control on Tropicana, east of paradise to divert traffic from the secured crime scene.

While performing traffic control on Tropicana I was advised by 624TA to go to Sunrise Hospital to assist with the escort of Fallen Officer C. Hartfield from Sunrise Hospital to the Coroner's office. Upon completion of the assignment we were released to return home as day shift units had taken over traffic control responsibilities.

SUBJECT

DIVISION REPORTING: Investigative (IAB)

DIVISION OF OCCURRENCE: Patrol

DATE & TIME OCCURRED: 10/1/17 2210 Hours

LOCATION OF OCCURRENCE: Route 91 Festival

NARRATIVE:

On the night of the shooting, I, Officer J. Langenhan P#13742 was contacted by my partner, Officer G. Stinnett P# 8091. Officer Stinnett and I are detectives assigned to the Internal Affairs Bureau. Officer Stinnett and I agreed to meet in uniform at Headquarters and take a plain car to the Command Post. Sergeant M. Misuraca P#5845 met us at HQ and accompanied us to the CP. We arrived around 2330 hours.

Upon arrival at South Central Area Command, we were given the call sign of Strike Team 36 and assigned to Southern Hills Hospital to conduct interviews with victims. When we arrived at Southern Hills, we met a victim named [REDACTED] who sustained a GSW to her buttocks. She had been treated and discharged but waited in the lobby to speak with us. We were able to obtain a taped statement from her. We also impounded her shorts which had bullet holes in them. Sergeant Dunn from SIB and his squad were also at the hospital. He instructed one of his detectives to photograph [REDACTED] to memorialize her injuries. Those photos should have been uploaded into OnBase by his squad. The shorts were impounded under the 3519 event number.

Our taped statement with [REDACTED] and transcription have been forwarded to FIT. There were only a few interviews that needed to be conducted at Southern Hills Hospital. There were approximately 10 various officers and detectives present to complete this task. After the interviews were complete, Officer Stinnett, Sgt. Misuraca and I returned to the CP at SCAC to await further orders. At approximately 0530 hours, we were instructed to report to HQ to begin our shift on the A/B Roster.

OCCURRED:10/01/17 2210LOCATION OF
OCCURRENCE:3950 S. Las Vegas Blvd LV NV 89109**NARRATIVE**

On 10/01/17 at approximately 2200, I Detective J. Sulek, P#13749, operating as plain clothes unit PD113, along with plain clothes Officer J. Serrano, P#14871, operating as PD195, heard the broadcast of an active shooter at the Route 91 Harvest Festival at the MGM Village, located at 3901 S. Las Vegas Blvd. Due to the information coming out over the radio of numerous shots being fired, myself along with Officer Serrano then went to the area of the incident.

Upon arrival, in the area of Reno and Duke Ellington which is northeast of the Festival grounds, we both donned our tactical gear and deployed our patrol rifles due to still hearing the sounds of gun fire. As we both got our gear on, several marked patrol units were there in the area as well as hundreds of people still running from the area, and many with gunshot wounds or blood on them. Numerous victims and witnesses were advising us that there were several shooters on the ground and that there were people shot and injured. Due to receiving the above information about another shooter, and still hearing gun fire coming from the Festival grounds, I then assembled a strike team to head towards the grounds to possibly neutralize a secondary threat. As I assembled a team to go, we utilized a marked patrol unit as a cover vehicle. As Myself, Officer Serrano and Officer T. Guynn, P#14891, along with several other Officers, began to make our way west on Reno, we observed more people running from Haven St. Due to the citizens running from Haven St, as well as hearing that Officers were taking gun fire at Reno and Giles, I then had the driver of the patrol SUV turn southbound onto Haven as Officers in the strike team then switched sides of the SUV, to continue to utilize it as cover, and in case a possible shooter was targeting Police personnel, I advised him to turn off all the lights on the vehicle. Victims on Haven St were also still advising Officers and myself, that there was a shooter on the grounds still as well. As victims contacted our team, we advised them to keep going north on Haven due to other Officers being there in the area and rendering first aid as well.

As Haven St then came to a cul-de-sac end, myself, Serrano and Guynn then entered a dirt parking lot, to the direct east of the Festival grounds, and began to use a bounding overwatch, moving from different bigger vehicles to another, using them as cover, progressing to Giles St, and eventually into the Route 91 Festival grounds. As we entered the Festival grounds we teamed up with several other Officers to clear the area and began evacuating citizens and victims from the area. As we began to move farther west, into the grounds, we came into contact with Sergeant Kommel-Bernstein, P#9045, who was also with another strike team as well as several unarmed citizens. We then used several buildings and grandstands to escort the citizens to a safer

area, where they were then escorted out by other Officers. Due to still not knowing where the initial shooter was as well as getting another report of another possible shooter at the Luxor, myself and Sergeant Kommel-Bernstein as my spotter, then ascended up to the top of a two story VIP lounge along the far west wall of the grounds, to maintain an elevated position to keep eyes on the Mandalay Bay and the possible area that the shooter was reported at. Officer Serrano, accompanied by his spotter Officer Guynn, also came with us to the second story to keep eyes on the Luxor and for any possible threats from that area. Officer J. Pelley, P#16157, also came with the two rifle teams to provide lower security for us in the area, and advise any other Officers that came in that units were above. After approximately an hour and a half, we secured from our position, due to units entering a room on the 32nd floor of the Mandalay Bay and securing the room and shooter of the event, as well as other Officers arriving to secure the grounds.

After we secured our area and walked back to our vehicle, myself and Serrano reported to the command post, located at SCAC, and were entered into Strike Team 47 where we were transferred to Baliys Resort to maintain site security.

ADDENDUM

Please include the following details with the initial Officer's Report. When Detectives Ghilarducci and Vallad arrived with Sergeants Kennedy and Rose the group that assembled and moved toward the gunfire was from different units. There was a mother and her daughter that wouldn't move from behind a vehicle they were hiding behind that turned out to be owned by one of the victims who was killed. Detective Vallad ran around the south corner of the church in the direction from where the civilians were running. Detective Ghilarducci ran to the vehicle and grabbed the mother and her daughter and ran them back to the church before directing them to the opening in the gate toward the Tropicana. The distance was later paced off to be 50 feet between the car and the church. When Sgt Kennedy decided to transport the two severely wounded women to the hospital the group split up and did not see each other again that night. Detective Ghilarducci was in the bed of the truck armed with a shotgun with the two victims. Sgt Kennedy drove with two family members. Detective Vallad joined another group and spent the rest of the night clearing some of the properties. Sgt Kennedy and Detective Ghilarducci returned to the Strip to look for more suspects. At one point the two teamed up with another group that included Officer Sal Moscoli and two other unidentified officers in tactical gear. The radio said there was a gunman at the Bellagio. The group entered the casino and cleared a portion of the gaming floor before realizing there wasn't a threat and returning to the Strip. When it was determined there was no further threat and collection of other casualties began Sgt Kennedy and Detective Ghilarducci returned to CCAC where they met up with two patrol officers who said they had an Uber driver who thought he had transported the suspect. Sgt Kennedy and Detective Ghilarducci transported the man to HQ for debriefing with Homicide then returned to the hospital to check on the status of the two victims they had transported. The screenshots that are depicted below have contact information for one of the victims and were sent the next day. Please ensure these comments and information are included with the original Officer's Report so it is complete.

On the aforementioned date Detectives from LVMPD CCAC Squad 18 along with other officers responded to a call for service in reference to an active shooter in the vicinity of the listed address. Upon arrival near the scene, Detectives from CCAC 18 were met by civilians attempting to flee the area. Automatic gunfire was still being shot as the officers arrived. Several of the civilians had yelled to the officers that there was a person shooting within the fairgrounds. Beleiving that there was an imminent threat to the safety of the civilians the

NARRATIVE:

On the aforementioned date Detectives from LVMPD CCAC Squad 18 along with other officers responded to a call for service in reference to an active shooter in the vicinity of the listed address. Upon arrival near the scene, Detectives from CCAC 18 were met by civilians attempting to flee the area. Automatic gunfire was still being shot as the officers arrived. Several of the civilians had yelled to the officers that there was a person shooting within the fairgrounds. Believing that there was an imminent threat to the safety of the civilians the officers assemble and approached the area where it was believed there was still a shooter. Sgt C. Kennedy P#8377, Sgt D. Rose P#13527 and Detectives J. Vallad P#12961 and W. Ghilarducci P#13797 were able to corral a large number of citizens next to the Roman Catholic Shrine of the Most Holy Redeemer church before directing them to an open gate which they could use to evacuate the area. There were four wounded civilians next to the church. 30 year old [REDACTED] were seriously wounded. [REDACTED] had multiple gunshot wounds and was bleeding profusely from a wound in her left hip that was not responding to compression. [REDACTED] had lost a great deal of blood, had cool, clammy skin, paleness, a rapid pulse and rapid breathing, enlarged pupils and anxiousness and agitation, all signs she was going into shock. [REDACTED] had similar symptoms and was bleeding profusely from wounds to her upper right extremity and ribcage. Sgt Kennedy attempted to obtain medical assistance but EMS was so overwhelmed with the volume of injured civilians that it was impossible to obtain treatment. Detective Ghilarducci re-applied a tourniquet that had been applied to [REDACTED] arm and noted that severe lacerations on her elbow and the bullet wound near her brachial artery was causing her to bleed badly. Detective Ghilarducci applied Quick-Clot gauze to [REDACTED] hip wound to slow her bleeding and protect the injury and alerted Sgt Kennedy to the seriousness of her symptoms. Sgt Kennedy made the decision to ground evacuate the victims with his unmarked police vehicle and Detective Ghilarducci assisted bystanders by helping the women to the back of vehicle where he stayed with them during the trip to the hospital continuing to monitor both women for bleeding and shock. Sgt Kennedy quickly drove the passengers to University Medical Center where dozens of severely wounded citizens had already arrived for treatment. The victims were taken inside and triaged. Both survived and were in surgery as of the morning of 10-02-2017.

Mass Shooting Incident
SUBJECT

DIVISION REPORTING: <u>ISD</u>	DIVISION OF OCCURRENCE: <u>ISD</u>
DATE & TIME OCCURRED: <u>10-01-17 @ 2215</u>	LOCATION OF OCCURRENCE: <u>Mandalay Bay Hotel 3950 Las Vegas Blvd S.</u>

NARRATIVE:

On October 01, 2017, at approximately 2215 hours, I, Detective K. Ruzicka p# 13806 was at home in bed when I received several texts over the phone. Upon checking the texts, I observed that there was an active shooter going on at the Mandalay Bay. I immediately turned on my department issued radio and discovered the information was accurate and officers and civilians were actively being fired upon by an unknown suspect or suspects. The radio traffic indicated the action was ongoing and could possibly be the actions of multiple suspects. I was notified from my Sgt. R. Whiteley and was told that we (team CIU 1) were to respond to the strip and assemble at the command post located at South Central Area Command. Before leaving my residence, I placed my tac-vest on and reported into the staging area. A short time later the entire team plus a contingency arrived who consisted of the following:

- Detective Josh Costello
- Detective Kyle Prior
- Detective Casey Dalrymple
- Detective Jake Legrow
- Detective Robert Grantham
- Detective Jake Vance
- Detective Richard Moreno

A short time after arriving at the staging area, CIU 1 was designated as Strike Team 1 consisting of myself and the above-listed individuals. We were tasked to respond to the Mandalay Bay and assist with any possible threats that might still be active. We were attached to Lt. John Leon who was tasked with setting up a forward operating area for SWAT to work from. CIU 1 initially set out on foot from SCAC heading toward Mandalay Bay. About halfway to the hotel we met up with a SWAT team and was picked up by a Bearcat and driven to the lower valley of Mandalay Bay where we established a base for operations. CIU 1 pulled site security and picked up straggler citizens and escorted them to the Michael Jackson theatre where a group of 1300 to 1800 citizens were being staged for safety purposes. CIU 1 collectively escorted 10-20 individuals to the theater.

A short time later we were tasked to clear all the hotel rooms at the Mandalay Bay ensuring there were no suspects and looking for Officer Hartfield who at the time, was said to be missing. Sgt R. Whiteley was given a

Route 91 Shooting

SUBJECT

Division Reporting: Tourist Safety	Division of Occurrence: CCAC
Date & Time Occurred: 10/01/17 2208	Location of Occurrence: Mandalay Bay

The following is an account of my response during the Route 91 shooting on 10/01/17

On 10/1/17 at 2208 our I Officer C. Arrendale was in briefing with my squad CC12 when we heard that shots were fired at the route 91 festival. I got into a vehicle with 3 other officers A. Colucci, E. Clatterbuck and S. Sanchez. We drove to the west valet of Mandalay Bay by way of Frank Sinatra. Upon arriving we formed a 4 man element and made contact with security. We advised security that we needed to get to the 32nd floor. Upon reaching the elevator the security officer told us that they had an active shooter on the 29th floor. We then responded to the 29th where we searched the hallways for a shooter. We cleared 2 rooms to include 29135 which was 3 stories below the shooter. While searching the hallway we heard Officer Sanchez (who was the rear guard) yell "threat". We turned around noticed a WMA wearing a Tac vest and holding a rifle. He was with a squad who had a tactical shield. He announced that he was Metro Police. He then told us that they would take the next level and to update with dispatch that we cleared the room.

After clearing the 29th we were headed to the 32nd floor when we were advised that SWAT was arriving and that they wanted us to hold our positions. We then waited in the stairwell for approximately 6 hours for further direction we confirmed multiple times that we were to hold our positions. Eventually a SWAT team came up to the 29th level and told us to join up with them to clear rooms. We helped them clear the rest of the 29th floor as well as 2 additional floors (I don't remember which ones).

After clearing rooms we checked in with the FOP (Catholic church off Giles) and were told to take scene protection posts along Giles. We took our posts until approximately 0800 when we relieved by day shift.

OCCURRED:10/01/2017 - 2221LOCATION OF
OCCURRENCE:3950 S Las Vegas Blvd, Las Vegas,
NV 89119 Mandalay BayNARRATIVE:*****BODY WORN CAMERA AVAILABLE*****

On October 1st, 2017 I Officer C. Fobbs P# 13879 was off-duty (RDO Sun, Mon, Tue modified graves) when I received a group message from my Sgt. F. Obasi P# 6642 at 2211 hours stating there was an active shooter at Mandalay Bay and over 100 victims reportedly injured. I immediately got into my personal vehicle and made my way to CCAC where I am stationed to retrieve my duty gear which consisted of my LVMPD issued police drab green BDUs, black gloves, a duty belt that contained; body worn camera, a firearm H&K VP9, 3 extra magazines (4 total), two sets of handcuffs, expandable ASP baton, taser, OC spray, radio, flashlight and my handcuff keys, my ballistic helmet, ballistic goggles and my personal shotgun Remington 870, a tactical ballistic vest with two level VI ceramic plates, two trauma med kits attached, 4 tourniquets, a "police" identifier patch on the rear of my vest, a backup firearm Glock 17 with 3 extra magazines, all of which made me readily identifiable as a police officer and to effectively be able to assist wounded if needed and to address any immediate threats.

Upon my arrival I met up with Officer T. Toliver P# 15003 who is also on my squad and responded to Tropicana Hotel 3801 S Las Vegas Blvd, Las Vegas, NV 89109, after reports of gunshots being heard and medical staff being fired upon. After arriving at Tropicana we were routed to New York New York 3790 S Las Vegas Blvd, Las Vegas, NV 89109. Once we made it to New York New York we met with members from our squad CC15/FLEX/Strike Team 50 along with Officers from another squad to form two strike teams at which time we made our way into the hotel to clear out any possible victims and to look for a possible shooter. Upon doing so, we learned there was no one inside the hotel shooting from what we observed, nor did anyone who was left inside of the hotel see anything.

We cleared New York New York, Excalibur, The Cosmopolitan Hotel and was shortly given an assignment to take overwatch on the Cosmopolitan to Miracle Miles Shops' bridge, where we were to prohibit anyone from going southbound on Las Vegas Blvd past Harmon due to it being a hot zone. Also to make sure no one loitered on the bridge and to clear people from the streets due to possible suspects outstanding. Once all reported scenes were made safe and there were no reports of any outstanding subjects, our team made our way to the command post at South Central Area Command where we staged until we received further instructions.

OCCURRED:

10-1-17

LOCATION OF
OCCURRENCE:

Route 91

NARRATIVE:

On 10-1-17 I Officer Joshua Rowberry P# 13894 and Officer Eric Gallegos P# 6628 were assigned to work special events at Town Square, the Blue Martini Club as 21SE. We were scheduled to start the overtime at 2300 hours. While en route to town square I called Gallegos and asked he was listening to the radio reference the active shooter at The Route 91. Gallegos advised he was and that he was in his personal vehicle. I arrived at Town Square 2230 hours and told Gallegos that we needed to go to the active shooter.

We jumped on I-15 north headed to South Central Area Command when we immediately hit grid lock traffic. The entire freeway was a parking lot. As we tried the emergency lane, that was also backed up. As we were stuck, an older pickup truck right in front of us looked to have people sitting in the back covered in blood. Gallegos and I got out of the vehicle to render aid there were 3 passengers in the back. Two unknown females and one male. The first female was sitting upright and had blood on her arms and legs. I had asked her are you hurt? Have you been shot? She was in a state of shock and stated I don't think so. I looked her over and could not see any injuries. Laying down was an unknown female and male. They both were laying down face to face as the male was hugging her very tightly. I asked him sir are you hurt? Are you shot? He stated no, but she is. He stated the female he was hugging was deceased due to a gunshot to the back of the head. He was holding on to her to give her some comfort as they were on the way to the hospital. At this time a Fire Captain and AMR unit had pulled up behind us.

I went to the trunk and put on my tactical gear with rifle. Gallegos and I then drove south on I-15 going the wrong way in a safe manner. We then hit 215 west and got off on Decatur and continued to head towards the Command Post. The radio traffic at this time sounded as if there was another possible shooter moving north on the boulevard. I told Gallegos to go north anticipating there was another shooter. As we were heading south on Flamingo, Sergeant Jennifer Benjamins P#6964, call sign 705V got on the radio and stated that there might be another shooter inside the Paris hotel. Gallegos and I immediately headed towards the Paris to join a strike team and stop the suspected shooter.

As we arrived we joined a strike team and immediately headed in to stop the shooter, render aid and help as many people as we could. As there was no shooter and 705V was given false information. We continued to clear out the Paris hotel and help people that were hiding and scared. Anybody we found were told to go the Paris conference room where security was keeping patrons until safe. At this time the Paris hotel was deemed code four and we waited there until further instructions were given. At approximately 0330 hours we were told to head to the command post and check in. At approximately 0400 we were released from the CP. I responded to NWAC were I continued to work until 0600 and secured with my squad that had been activated due to the incident.

I contact Sgt. Ward to review my body camera and he advised me that there was a video from that night. I remember hitting the camera button to activate but unknown why it didn't record. After putting my tactical vest and rifle on I cannot access the camera button due to it being in my right breast shirt pocket.

SUBJECT

DIVISION REPORTING: Community Policing Division

DIVISION OF OCCURRENCE: SCAC

DATE & TIME OCCURRED: 10/1/2017 2230

LOCATION OF OCCURRENCE: CCAC

NARRATIVE:

Officers Involved:

B. Lee P#9072
B. Knudson P#13903
R. Chavez P#7758
D. Weber P#14457
R. Shoemaker P#14458
M. Magsaysay P#14804

On 10-1-2017 at approximately 2210 hours, Officers assigned to the SCAC Flex Team were Off- Duty during standard RDO's. Officer Shoemaker received a text message from a fellow LVMPD Officer reference a possible active shooter at the Mandalay Bay Hotel and Casino. Details were given to Officer Shoemaker that there were multiple active shooters near the Mandalay Bay and multiple people shot, including Officers. Members assigned to the SCAC Flex Team then listened to real time radio traffic of the incident and decided to take action and meet at SCAC to assist with the situation.

The first member of the SCAC Flex Team to arrive at SCAC was Officer Magsaysay. Officer Magsaysay quickly donned his tactical vest, equipment and rifle. Officer Magsaysay overheard radio traffic that the active shooter at Mandalay Bay was still actively shooting at people on the strip and made a quick decision to respond directly to Mandalay Bay to assist in stopping the threat. Officer Magsaysay quickly met up with LVMPD SWAT officers and converged on the 32nd floor of the Mandalay Bay.

The remaining members of the SCAC Flex Team arrived at SCAC and also donned tactical vests and deployed rifles. Flex Team Officers then arrived at the Command Post with other "In the Box" squads in the front parking lot of SCAC for further instruction on deployment. Flex Officers who were operating without a Sergeant, decided to join another strike team who was in need of rifle carrying officers. SCAC Flex Officers joined SGT. J. Benjamins (VICE), squad to assist with multiple strike teams. SCAC Flex Officers were then assigned to respond to the Paris Hotel and Casino where reports of a person with a gun and illegal shootings were occurring. Flex Officers and Vice Detectives arrived to a crowded casino filled with patrons. Upon arrival at the casino, many citizens were running in panic from the Route 91 festival which spread throughout the

property and on Las Vegas Boulevard. After hearing from citizens that a person was shooting inside the Paris, Flex Officers and Vice Detectives then dispersed in multiple strike teams and cleared the casino. With the help of Paris Security Officers, hotel guests were sent back to their rooms and employees were advised to shelter in place in secured areas until further notice. Reports of a possible shooter or shots being fired inside the casino turned out to be false and Officers were advised to hold their position at the Paris.

After clearing the Paris, Officers were summoned back to the command post for further instructions. SCAC Flex Officers were then removed from the Vice squad and were stationed at the Casino Royale property on Las Vegas Boulevard to show police presence.

SUBJECT

Division Reporting: CCAC/CC11	Division of Occurrence: CCAC/CC11
Date & Time Occurred: 10-1-17 2210	Location of Occurrence: 3901 S Las Vegas Blvd (Concert Field) LV, NV 89119

On 10-1-17 at about 2200 hours I Officer G. McNally P#13911, MGM Outside Events [REDACTED] and Officer Albright P#12950 were enjoying the concert at 3901 S Las Vegas Blvd LV NV 89119. We were in the Coca-Cola Suite #2 on the southeast side of the concert village next to Las Vegas Blvd. The performer Jason Aldean had just come on stage and was a few songs into his set when a repetitive popping sound similar to fireworks went off. The sound seemed to be coming from the west. Initially the crowd seemed to just be looking around for what was making the sounds and where the noise was coming from. I observed two overtime Metro Officers appear to be checking the stands to the south of our location. Then the crowd started to react and begin running in all directions. The band of performers ran off the stage to the west. Now there seem to be bursts of popping that were long and continuous but I still couldn't determine where it was coming from. I hadn't heard what turned out to be automatic gunfire that was coming from a distance before. It almost sounded like the microphone was sparking over the speaker system. Then I began to notice that people were down on the ground in the field in front of me.

We were on the balcony of the Suite which was one level up from the ground level about four feet. Someone yelled from behind us that a man was hit and somebody help him as people were hiding inside the suite behind us. Officer Albright and I turned to attend to the white male who appeared to be bleeding from the upper right leg laying slumped in a chair. I recognized he needed a tourniquet but wasn't exactly sure where the bullet hole was located. I said we need a tourniquet. Officer Albright spotted a bag with a strap on the ground behind him and began detaching the strap by hand. He handed me the strap and I tied it in a knot around his leg as high as I could go. I then said I needed something to twist it with and Officer Albright went inside the Suite returning with a pair of plastic tongs used for food handling. I quickly took the tongs and placed them inside the tied strap twisting and twisting until it seemed very tight. I couldn't see exactly where the bleeding was coming from but it seemed to slow although I'm not completely sure it was due to our actions. I told Officer Albright we need something to move him with and Officer Albright quickly located a wheel chair positioned next to the Suite. The white male was pretty large probably over 200lbs. He was also limp and non-responsive. Several people sheltering in the Suite began to try and load him into the wheel chair. It took several attempts but he was loaded and taken out the back of the Suite away from where the gunfire seemed to be coming from.

When we exited the rear of the Suite people were scrambling under a set of stairs to escape the fence enclosed area. We knew the wheel chair couldn't go under the stairs so Officer Albright jumped over the stairs and by hand started untwisting the wire tied from the fencing to the pole. Once he had accomplished this Officer Albright, [REDACTED] and I began pushing the fence away from the pole and stairs creating a gap big enough to get the wheel chair through. Again some other patrons of the concert saw what we were doing and began pushing the fence as well. As soon as there was a gap [REDACTED] directed people to the gap and a small flood of people that had been sheltering in place saw an opportunity to escape the small area and began running past. One of the patrons helping with the wheel chair saw a break in people rushing past and pushed the chair forward. The gap wasn't quite big enough so a group of us picked up the wheel chair high enough to get it over the stairs. I and another man were pushing the wheelchair toward an open gate on the east side of the field at Reno Drive. I told [REDACTED] to stay with me but she was trying to get people to exit through the gate. The man helping me push the wheelchair said he had it as we got close to the gate and took over pushing the wheel chair.

Once outside the gate I saw people trying to help the injured. They began stopping fleeing vehicles and loading the injured in the vehicles to take to the hospital. I stopped a cab driver's vehicle full of passengers and helped

Event #: LLV171001003519

some others load an injured person in the cargo area. I told the cab driver to take off slowly as the back hatch wouldn't close, to drive careful and try to stay calm. There were people walking and running out of the gate with more injured. I ran back into the concert village area and looked for something on wheels. I found a rolling garbage bin. I spotted [REDACTED] and called to her to give me a hand. We tipped the bin over and emptied the trash out. I then began to run back to the area where the injured were coming from. I called to [REDACTED] leave the area but she yelled back that she had to clear the field and get the people out so she ran back inside.

As I ran back in there were two men helping another man off the field. They had him between them with his arms over their shoulders as it appeared he couldn't walk. The injured man was screaming in pain. I said load him in here I'll take him pointing to the bin. The injured man said yes yes load me in there. As I got closer I saw his right leg had been severed and the bone was broken. His lower ankle and foot were dangling to the side. He told me he got hit in the leg and now it's messed up. I wheeled him out of the concert village to the injured staging area. It now looked like a somewhat coordinated effort by citizens of stopping vehicles trying to leave and loading injured people inside. The man in my cart was helped out by some other men as he screamed in pain then loaded into the bed of a pick-up truck. I turned to run back inside.

I was pretty winded by this time and started to feel my mouth dry up. It was all happening very fast. I saw people carrying the injured and one was being wheeled out in a wheel barrow. I don't recall if it was one or two more injured that I helped. I'd roll up to someone on the ground with a person next to them and I'd ask if they needed help to get out. A couple of times I'd hear someone say this one is dead and I'd move further into the concert field. The next group I do remember coming upon was carrying a female on a cattle barrier while someone was doing CPR on the female. They loaded the female onto my cart cattle barrier and all and we took off running. They wanted to take her into the House of Blues Bar where they had heard medical was taking care of the injured. I tried to get them to go out the gate but the group was determined so I just pushed along trying to steer with the others pushing and one man doing CPR. We entered the opening for the bar. It was surreal. There were people lying on the ground injured and bleeding. Some were being attended to and some appeared dead not moving. I didn't see any medical personnel inside helping anyone. I guess neither did the group helping out as we quickly turned and headed out the opening in the back. We all wheeled the female on the barrier through the back lot. My hand got smashed a couple of times when we'd hit an obstacle on the ground and the barrier would slide forward pinching my hand between the cart and cattle barrier. We got to Reno and the group loaded the female in the bed of a truck all the while the man doing CPR on her.

I turned to go back inside. After I got back inside onto the main field a man ran up to my cart which still had the barrier on it and said he was an off duty paramedic and would help me. We ran up to the first person on the ground and he quickly darted down at the person's side. It was so dark I couldn't see if the person was male or female. The person was lying to the east of the field. The paramedic guy quickly jumped up and took one of his hands waving it fingers spread palm down back and forth across his throat area signaling no and he said the person was dead. We moved together forward holding the cattle barrier in place looking for someone to help. I saw people moving about but again it was dark. We made a route around the outside edge of the field until we came up on the west side. It didn't appear there were any more injured. A man came up and said the rest are dead. The paramedic asked the guy no injured and the other man said no their dead leave them in place. I looked around and saw some people trying to cover the bodies with banners they must have torn down from fences and stage area. I took the cart and headed back out of the concert field towards Reno. Once we were out of the gate the paramedic guy said I need to help people and left. I helped load some injured and directed some traffic.

I saw some LVMPD Officers behind a patrol vehicle in the middle of Reno. Two were on shotgun and one was on rifle. They seemed to be providing an over watch type of cover in case someone came from either north or south as well as out of the fenced concert area proving to be a threat. I approached them hands up saying I was an off duty Metro Officer McAnally P#13911 out of Convention Center Area Command and that I wanted to help. Being unarmed and in plain clothes the best option for me to help was to keep people away from their backs and direct all traffic going around them. People kept running up to their position say Officer Officer we need help. I'd try and stop these peoples approach and tell them to stay back these Officers are providing protection right now they can't help. I'd say I'm an off duty Officer what do you need and then try to help them. There were a few cars leaving the area and I'd run up to the car tell them to slow down, direct them to where they needed to go and tell them to keep their hands on the steering wheel. At one point an AMR or Medic West Paramedic came up and asked if there were any injured further south on Reno. I said I didn't believe so and he asked about a group

CONTINUATION

Event #: LLV171001003519

huddled on the ground at the very south of Reno near Giles. He said he needed to check and asked would I go with him. We walked down to the people and asked if anyone was hurt. They said they were alright and then pointed out what appeared to be a hole made from a bullet that had passed through a Ford SUV they were hiding behind. The bullet had passed through the rear windows of the vehicle. This went on for a while with me directing traffic and keeping people from approaching the team behind the patrol vehicle.

Finally Officer Albright and some other Officers from CCAC came up to our position. Officer Albright was wearing a neon police vest and carrying a Department shotgun. He was with Officers De Souza, Peralta, and Tran and I believe they had been inside the concert area escorting people out. A Sergeant in uniform that I didn't immediately recognize came up to the position. He said something about needing a team to go back inside and escort the performers who were sheltered in their bus out of the concert field. He must have asked who I was and I told him because he told one of the uniformed officers to hand me a weapon and his neon vest. The Officer seemed to be reluctant to hand me his Glock side arm from his holster, as I would have been, but he did it without question then handed me a spare magazine as well as his vest. The Officer was one of the ones providing over watch and carrying a shotgun. We exchanged P numbers and I promised to get his firearm back to him. Then I Formed up with Officer Albright and the others and we headed back inside the concert field.

We formed a strike team and went back inside. Officer Albright had already been clearing the concert field with the others so he took lead. I followed directly behind him and we proceeded to the tour bus area behind the stage. We weaved in and around the buildings of the field and then past some of the stage area to the buses. When we got over to the busses there was an LVMPD Lieutenant there with a group of Officers he told Albright that the performers wanted to shelter in place inside their buses. Officer Albright led the team back out of the concert field. Once outside we walked along Reno where we were asked to go east on the street perpendicular to Reno which I believe is Ali Baba to help secure the hangar area where people were evacuated. When we got down there Officers who were posted at that position informed us they were good and it was all secure. We then proceeded through the church parking lot to where we thought the command post was but no one was there.

We all walked up to a Gate 4A located on Reno. An Officer came up and said he needed uniformed Officers because they had decided to escort the performers off the buses. So most of the team we were with left to go take care of that. We went into the concert field at gate 4A. We were approached by an MGM Outside Events Executive we had met earlier in the day by the name of [REDACTED]. He told us that some of his employees were sheltered inside Conex boxes on the northwest side of the concert field. Officer Albright, Officer Tran and I started to head to where he had told us they were which was below the multicolored tower. When we got over in the area we could see the Conex boxes which were shipping containers turned into offices. We made a plan that Officer Tran, the only uniformed Officer of the three of us would provide cover as Officer Albright and I approached and cleared the Conex boxes. Officer Albright announced and we checked each of the boxes. In one of the Conex boxes there were two people a male and a female. We did a quick pat for weapons and checked their backpacks. We then had them come up to Officer Tran's position while Officer Albright and I cleared the rest of the Conex boxes and surrounding area. Behind the Conex boxes there was an area with forklifts and lighting equipment like a small construction yard which was too big for two Officers alone to clear so we decided to just escort the two people we had found out of the concert field. When we got back over near Gate 4A The MGM Executive took his employees over to their MGM command post. We asked if there was anyone else and he said no.

We walked over to Gate 4A where a Lieutenant told us to secure the gate and not let anyone back into the concert field. Gate 4 was where the Medic tent had been located for the event. Medical items like syringes, bandages and packaging. Directly to the west of the tent in a small area there were four dead bodies. Three were laying on the ground and one woman was still in a wheel barrow. Officer Tran went and got some police tape and we sectioned off the opening to keep anyone from walking down there and disturbing the scene. We continued to stand post there monitoring who came in and out. I escorted a few MGM Employees from the gate to their command post and back. Officer Albright and I were stationed there at Gate 4 until we were relieved by uniformed officers sometime around 0500 hours. Sergeant Schwartz gave us a ride to our vehicle parked at Excalibur parking garage off Frank Sinatra. Officer Albright and I then drove over to the station and met with Sgt. Schwartz before going home a little before 0600 hours.

OCCURRED: 10/01/17 Time 2200 hrs

LOCATION OF
OCCURRENCE: 3950 S. Las Vegas Blvd. Las Vegas, NV
89119

NARRATIVE:

On 10/01/17 at approximately 2200hrs I, Officer T. Peralta P# 13912, along with Officer Lea P# 16397, while operating as marked patrol unit 3M9, we responded to the Active shooter at Mandalay Bay Route 91 concert from CCAC. Upon arrival in the area of (E. Reno Ave and Haven St.) we could hear the gun fire what sounded like at the time coming from inside the concert. My partner and I parked the SUV on the corner and gone on foot behind the Roman Catholic Church and made our way to Giles St. We could see people running from the Concert from a side open gate on the west side of the venue. We met up with other officers and made entry looking for the shooter. After hearing that the shooter was inside Mandalay Bay we started to evacuate people out of the concert to safety and to the EMS.

After we had evacuated the concert, we were tasked by a LT on scene at Reno and Giles St. to conduct site security for EMS. We shut down Reno and Giles St and was posted there until end of shift.

Event #: 171001-3519RESPONSE TO RTE. 91 ACTIVE SHOOTER

SUBJECT

DIVISION REPORTING:	<u>Internal Affairs Bureau</u>	DIVISION OF OCCURRENCE:	<u>CCAC</u>
DATE & TIME OCCURRED:	<u>10/01/2017 - 2205 hours</u>	LOCATION OF OCCURRENCE:	<u>Rte. 91 Harvest Festival</u>

NARRATIVE:

On Sunday, October 1st, 2017, at 2221 hours, I, Detective Jonathan Hovan P#13919 was off duty on RDOs at my residence when I received a text message from Detective Malcolm Napier P#14459 alerting me to an active shooter event taking place in CCAC.

I turned on my radio and heard radio traffic reference multiple casualties, including both civilians and LVMPD officers. I called Det. Napier, and we agreed to self-deploy, and meet at NWAC in order to respond to the incident together. We appropriated an unmarked police vehicle, and drove Code 3 towards the Mandalay Bay hotel and casino. While en route, Det. Napier logged us on via the Admin channel as "IA6".

We arrived and staged our vehicle near the "Welcome to Las Vegas" sign at approximately 2300 hours. The radio traffic we listened to while driving indicated that there were multiple separate shootings in our immediate vicinity, and that multiple suspects were still outstanding.

Both Det. Napier and I were not in the uniform of the day, however we both had tactical police vests with "POLICE" emblazoned in letters on the backs. Both vests had cloth badges on the front, and Det. Napier had a yellow POLICE jacket underneath his vest. We each had a tactical helmet on, deployed our respective rifles, and ran towards a group of officers who appeared to be forming strike teams.

I initially joined "Strike Team 3", under the supervision of Sgt. Landon Reyes P#13129. Our mission was to respond to the continued reports of active shooters and assist victims at the Mandalay Bay, Luxor, Excalibur, New York-New York, and Monte Carlo properties. We ran on foot from our vehicle, and cleared multiple properties. In the process, we worked with additional strike teams, and facilitated the evacuation of large numbers of civilians.

Upon reaching the area of the T-Mobile arena, I was re-assigned to "Strike Team 4", under the supervision of Sgt. Joe Edens P#9874. Strike Team 4 took position on the top floor of the Monte Carlo parking garage, and provided overwatch for the park area among the Monte Carlo, T-Mobile and New York-New York properties.

We were released at approximately 0530 hours to respond to the Command Post for re-deployment, and were instructed by a bureau sergeant to come to Headquarters for A/B rosters.

On 10/1/17, at approximately 2230 hours, I, Officer M. Santoyo, P#13942, while off-duty, learned about the shooting situation at the Mandalay Bay via text message. Based on news reports and other text messages, I made the decision to self-report to South Central Area Command and assist in any way I could. I donned my riot gear, rifle and hard armor and contacted Lieutenant Hank. He assigned me to Sergeant A. Packe's squad (BA33). We formed a strike team and made our way to the Paris Hotel where there were reports of more shots being fired. We cleared the north end of the casino floor then held in the alley between Paris and Bally's. We found the reports to be unfounded. We started moving towards the Bellagio until the shots fired reports made there were also announced to be unfounded.

We then held at the intersection of Tropicana and Las Vegas Boulevard and awaited further instruction. We were then ordered to make contact with subjects that were sheltering in place in the Tropicana Casino's Pavilion. We provided security and manned the main doors to the casino until we were cleared.

Route 91 Active Shooter Incident

SUBJECT

DIVISION
REPORTING:

NEAC / NE 31

DIVISION OF
OCCURRENCE:

CCAC

DATE & TIME
OCCURRED:

10/01/2017 @ 2230

LOCATION OF
OCCURRENCE:

Las Vegas Blvd / Reno

NARRATIVE:

On 10-1-17 at approximately 2345 hours, I Sergeant J. Glover responded as a Strike Team with my squad of seven officers from Northeast Area Command. Upon arrival at the staging area at South Central Area Command, they broke my squad into two strike teams (31A and 31B). We were directed to provide force protection for Medical/FD units at various properties on the Las Vegas Blvd. I led Strike Team 31A which was comprised of Officer T. Huhn P#15465, Officer M. Shultz P#15737 and Officer M. Springer P#15326. I assigned Officer A. Propp P#15106 to be the team leader for Strike Team 31B which was comprised of Officer H. Svarczkopf P#14867, Officer J. Porter P#15352 and Officer M. Mulligan P#15657.

My strike team element paired up with Medical/FD units and responded to the MGM Grand where there were several victims that needed medical attention. Once medical had transported the victims out of the MGM, we were then directed to the Mandalay Bay to assist in clearing floors, room by room. I recombined my strike teams into a larger eight person element, grouped up with several HSST officers and began clearing floors of the Mandalay Bay at the direction of SWAT.
